DU MONTENEGRO AVEC L'ACTE DE 1991
DE LA CONVENTION UPOV**

Document établi par le Bureau de l'Union

Introduction

1. Dans une lettre datée du 19 mars 2008, adressée au secrétaire général de l'UPOV, Son Excellence M. Milutin Simovic, ministre de l'agriculture, de la sylviculture et de l'hydrologie du Monténégro, a demandé l'examen de la version finale du “projet de loi sur la protection des variétés végétales” (ci-après dénommé “projet de loi”), que le Gouvernement du Monténégro a approuvé le 19 mars 2008, pour en déterminer la conformité avec l'Acte de 1991 de la Convention UPOV (ci-après dénommé “Acte de 1991”). Cette lettre est reproduite dans l'annexe I du présent document. L'annexe II contient une traduction en anglais du projet de loi, remise par les autorités du Monténégro.
2. L'article 34.3) de l'Acte de 1991 dispose que “[t]out État qui n'est pas membre de l'Union ou toute autre organisation intergouvernementale demande, avant de déposer son instrument d'adhésion, l'avis du Conseil sur la conformité de sa législation avec les dispositions de la présente Convention. Si la décision faisant office d'avis est positive, l'instrument d'adhésion peut être déposé.”
3. Le Gouvernement du Monténégro a engagé la procédure pour devenir membre de l'UPOV par lettre datée du 11 septembre 2007, dans laquelle Son Excellence M. Milutin Simovic, ministre de l'agriculture, de la sylviculture et de l'hydrologie, demandait

l'avis du Conseil de l'UPOV sur la conformité avec l'Acte de 1991 de la “loi sur la protection des variétés végétales”, adoptée le 24 juillet 2007.

4. À sa quarante et unième session ordinaire tenue le 26 octobre 2007, le Conseil a décidé ce qui suit :

“a) de prendre note des renseignements communiqués dans le document C/41/14;

“b) de recommander au Monténégro d'incorporer des dispositions additionnelles et des modifications dans la loi, telles qu'elles figurent dans le document C/41/14, et de remplacer “30 jours” par “60 jours” dans l'alinéa 3 de l'article 12 de la loi; dès que ces dispositions additionnelles et ces modifications auront été incorporées dans la loi, la loi ainsi modifiée devra être soumise au Conseil pour examen de sa conformité avec l'article 34.3) de l'Acte de 1991;

“c) de demander au Bureau de l'Union d'offrir son concours au Gouvernement du Monténégro pour la rédaction des dispositions additionnelles et des modifications nécessaires; et

“d) d'autoriser le secrétaire général à informer le Gouvernement du Monténégro de cette décision.”

5. Conformément à la décision susmentionnée prise par le Conseil le 26 octobre 2007 et en application de l'article 34.3) de l'Acte de 1991, le Gouvernement du Monténégro a présenté une nouvelle demande (voir le paragraphe 1 du présent document) afin d'obtenir l'avis du Conseil sur la conformité du projet de loi avec l'Acte de 1991.

Article 4

In the proceedings before the competent authority, any foreign legal and natural person shall be represented by a local representative.

II. VARIETY PROTECTION

1. CONDITIONS AND DURATION

Conditions
Article 5

A variety shall be protected in accordance with this Law provided that it is new, distinct, uniform, stable and designated by an appropriate denomination.

Period of protection
Article 6

The period of protection of a variety shall expire after twenty five years, and in the case of trees and vines it shall expire thirty years from the day of the grant of the breeder's right.

2. NEW VARIETY
Article 7

A variety shall be considered new if, at the date of filing of the application for a variety protection, the propagating or harvested material of the variety has not been sold or otherwise disposed of to others, by or with the consent of the breeder, for the purpose of exploitation of the variety in Montenegro for the period longer than one year or in a territory other than Montenegro for the period longer than four years or, in the case of trees and vines, longer than six years from the said date.

The variety referred to in the paragraph 1 of this Article shall also be considered new in cases when it is disposed of to others in one of the following ways:

- 1) By a contract on the transfer of the breeder's right;
- 2) By a contract on the basis of which the propagating material of the variety is multiplied on behalf of the holder of the breeder's right, provided that the propagating material multiplied is returned to the holder of the breeder's right and that the propagating material multiplied is not used for production of another variety;
- 3) By a contract on the basis of which researches are made in the experimental field and in laboratories, for the purpose of variety evaluation.

3. DISTINCTNESS
Article 8

The variety shall be deemed to be distinct if it is clearly distinguishable from any other variety whose existence is a matter of common knowledge at the time of the filing of the application.

In particular, the filing of an application for granting of a breeder's right or for entering of another variety into an official register of varieties, in any country, shall be deemed to render that other variety a matter of common knowledge from the date of the application, provided that the application leads to the granting of a breeder's right or to the entering of the said other variety into the official register of varieties, as the case may be.

The methods for checking the distinctness of a variety shall be laid down by the Ministry responsible of agriculture (hereinafter referred to as: Ministry).

4. UNIFORMITY
Article 9

The variety shall be deemed to be uniform if, subject to the variation that may be expected from the particular features of its propagation, it is sufficiently uniform in its relevant characteristics.

The methods for checking the uniformity of a variety shall be laid down by the Ministry.

5. STABILITY
Article 10

The variety shall be deemed to be stable if its relevant characteristics remain unchanged after repeated propagation or, in the case of a particular cycle of propagation, at the end of each such cycle.

The methods for checking the stability of a variety shall be laid down by the Ministry.

Variety
Article 11

The variety denomination may be a word, a combination of words, a combination of words and numbers or a combination of letters and numbers, meaningful or meaningless, provided that the designation enables the variety to be identified.

Where a variety denomination has already been used in Montenegro or some other country or where an application is filed or the denomination already registered in Montenegro or some other country, only the variety denomination which has been proposed may be used in the protection procedure before the competent authority.

Where a variety denomination proposed is inappropriate for use in Montenegro, the breeder shall propose another denomination which, if it is appropriate, shall be registered in the Register of Applications and the Register of Protected Varieties.

A variety denomination may not consist solely of figures unless this is an established practice for designating specific varieties. A variety denomination may not mislead or cause confusion concerning the characteristics, value or identity of the variety or the identity of the breeder. A variety denomination shall be different from any other denomination used on the territory of UPOV Members for designation of existing variety of the same plant species or a closely related species.

Any person who markets or advertises the propagating material of a variety protected shall use the registered variety denomination.

The obligation concerning the use of the registered variety denomination shall not expire even after the expiration of the period of variety protection referred to under the Article 6 of this Law, except where, in accordance with the provisions of paragraph 8 of this Article, prior rights prevent such use.

When a variety is marketed or advertised, a trademark, trade name or other similar indication may be associated with the registered variety denomination, provided that the variety denomination is easily distinguishable.

Where use of a variety denomination is forbidden to a person who is bound to use it, for reasons of any of the prior rights of a third person, the competent authority in responsible for plant variety protection (hereinafter referred to as: competent authority) shall request from the breeder to propose another denomination for the variety.

The competent authority shall notify the applicant of the objection referred to in paragraph 3 of this Article and invite him to submit a reply to the objection within the period of 30 days from the day of the receipt of the notification.

In his reply to the objection, the applicant may propose a new denomination for the variety.

In case the denomination proposed does not comply with this Law, the competent authority shall order the applicant to file a proposal for a new denomination of the variety within the period of 60 days from the day of the receipt of the notification.

If the applicant fails to submit the proposal of the new denomination within the prescribed period of time, the competent authority shall reject the application.

The variety denomination is granted by the competent authority in the decision on variety protection.

Reasons for Rejection of Denomination Proposed
Article 13

The competent authority shall reject the proposal of a variety denomination, which:

- 1) Is inappropriate for a variety identification;
- 2) Consists solely of signs or indications that may serve for indication of a variety, kind, quality, quantity, intended objective, value geographic origin or time of production;
- 3) Is contrary to Article 11 of this Law;

The Ministry shall prescribe which species are to be deemed closely related .
