# 1 About this guide

This guide, which is intended for users of UPOV PRISMA, is divided into three parts:

Part 1 - WIPO ACCOUNTS: explains how to create and manage online user accounts;

Part 2 - UPOV PRISMA - Assigning and Managing Access Rights;

Part 3 – UPOV PRISMA - Overview of Features and Functionalities.

It could be helpful to have a short paragraph at the beginning of both the Breeder and Agent User Guide explaining which type of user they should apply as – or providing a link on where to obtain a simple guide on how to decide.

# 2 Acronyms

IRN	International Reference Number
CPVO	Community Plant Variety Office of the European Union (CPVO)
PBR	Plant Breeders' Rights
PVP	Plant Variety Protection

Reference in this guide to the term "PBR authority" (i.e. authority entrusted with the task of granting breeders' rights) should be understood as also covering the term "PVP Office".

# 3 Overview

UPOV PRISMA is a tool to transfer application data from breeders to the selected PBR authorities of UPOV members.

The list of participating authorities and crops and species covered is available on-line: <a href="http://www.upov.int/upovprisma/en/index.html">http://www.upov.int/upovprisma/en/index.html</a>

Navigation languages can be selected in the header:

The supported browsers for WIPO Accounts and UPOV PRISMA are:

- Mozilla Firefox
- Internet Explorer
- Google Chrome

In order to use UPOV PRISMA, the user should:

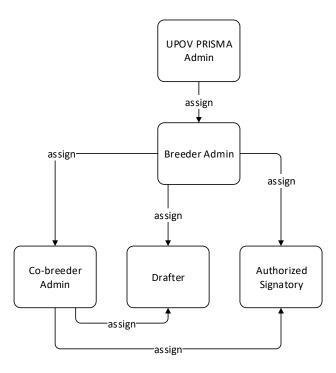

- 1. Create a WIPO Account (§4)
- 2. Request a role assignment (§5)

At UPOV PRISMA web application level, four roles are identified for breeders:

• Breeder Administrator: has the ability to start a new application, View, Edit, Delete, Sign, Submit and Copy PBR application data using the Web application tool. The Breeder Administrator role is assigned by UPOV PRISMA. The breeder administrator can create and assign the role of drafter, authorized signatory and co-breeder administrator role.

- Co-breeder Administrator: has the ability to start a new application, View, Edit, Delete, Sign, Submit and Copy PBR application data using the Web application tool. The co-breeder administrator can create and assign the role of drafter and authorized signatory.
- Drafter: has the ability to start a new application, Edit, Delete, View and Copy PBR application data using the Web application tool.
- Authorized signatory: has the ability View, Sign, Submit PBR application using the Web application tool and to pay application fees.

	Start	Edit	Сору	Delete	View	Sign	Submit	Assigning of Roles
Breeder Admin	х	х	х	х	х	х	х	Drafter, authorized signatory and co-breeder admin role
Co-breeder Admin	х	х	х	х	х	х	х	Drafter and authorized signatory
Drafter	Х	Х	Х	Х	Х			
Authorized signatory					х	х	х	

At application data level, three roles can be assigned:

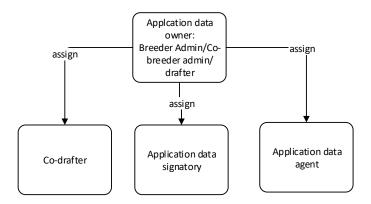

- Co-drafter: has obtained the authorization from other drafters/breeder admin/co-breeder admin to edit their application data. This role is set per application data by the drafter/breeder admin/co-breeder admin, owner of that application data. The owner is the person who started the application data.
- Application data signatory: has obtained the authorization from other drafters (owners) to sign their application data. The drafter should be able to assign this role from a list of authorized signatories (already authorized by a breeder admin or a co-breeder admin).
- Application data agent: if they have obtained authorization from the application data owner to edit and/or sign their application data. In some cases, the owner will be able to assign this role from a list of authorized agents.

#### **UPOV PRISMA**

#### User Guide

	Start	Edit	Сору	Delete	View	Sign	Submit	Assigned By
Co-Drafter		x			x			Application data owner: Breeder admin, co- breeder admin or drafter
Application data signatory					x	x	x	Application data owner: Breeder admin, co- breeder admin or drafter
Agent		X*			х	X*	X*	Breeder admin, co- breeder admin or drafter

\* Only if authorized

- 3. Complete their user profile (§6.1)
- 4. Access the home page (§6.2)

From the Home page, depending on their role (see table above), the user can navigate through the different pages as described below:

# 4 WIPO Accounts

The World Intellectual Property Organization (WIPO) assists UPOV in financial and administrative matters (see document <u>UPOV/INF/8</u>).

The WIPO Accounts portal enables users to create and manage their WIPO user account, which is required in order to access UPOV PRISMA.

Note: Please note that the same e-mail address cannot be used with more than one user account.

### 4.1 Create an account

To create a user account:

1. Open the browser and enter the URL: https://www3.wipo.int/upovprisma

WIPO		
ACCOUNTS	Sign in	Why create a WIPO Account?
	Sigir in	Why create a Wh O Account?
Create account	Username	Using just one user name and password, you can access your profiles for any of the following services;
:: Manage account	Forgot your username?	
	Forgot your usernamer	<ul> <li>UPOV Electronic Application Form</li> </ul>
:: Reset password	Password	UPOV Distance learning courses
:: Retrieve username	Forgot your password?	UPOV Pluto Database
	Sign in	

2. Click on "Create account". The "Create an account" screen is displayed.

**Note:** All fields marked with '\*' are mandatory and must be completed. For the purpose of UPOV PRISMA and in order to facilitate collaboration with your colleagues (of the same legal person: e.g. company, public institute), you must provide Company/Organization information.

3. Enter a Username of your choice. The username must contain at least four characters.

**Note:** If the Username you have entered already exists for another WIPO account user, the message 'Username is already in use' will be displayed. Please create a different Username that does not yet exist in the system.

**Note:** Although the address field is not compulsory, it is recommended to complete the information to avoid having to retype your address in the application form in UPOV PRISMA.

4. Enter the e-mail address to which you want UPOV PRISMA notifications to be sent in the 'E-mail' field and confirm it by typing it again in the 'Confirm e-mail' field.

**Note:** It is important to type your e-mail address correctly, since, in order to validate the creation of your user account, an e-mail will be sent from 'noreply@wipo.int' containing a web link that you will need to click on to validate your account. Please check your spam/junk filters if you do not receive the e-mail in your mailbox.

5. Enter a password of your choice in the 'Password' field and confirm it in the 'Confirm Password' field.

**Note:** The password must be at least eight characters long and must contain at least one numerical character. When choosing your password, please bear in mind that the password field in the login screen is case sensitive.

6. Enter the verification characters that appear in the text box in the Characters field below.

7. Once all required fields have been completed click on 'Create account'.

8. The 'Validate user account' screen is displayed.

eate an account
<sup>9</sup> Your account has been reseted
vever, this vebsite requires account confirmation, a confirmation link has been sent to the e-mail address you provided. Please check your e-mail for further information.
•

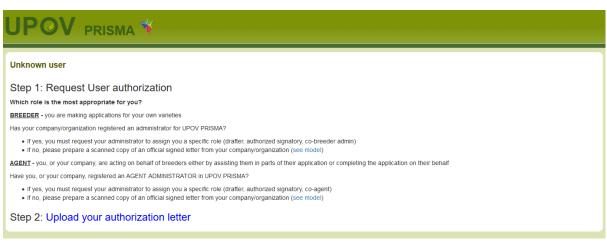

9. In order to validate the creation of your user account, an e-mail will be instantly sent from 'noreply@wipo.int' containing a web link. This e-mail will be sent to the e-mail address provided during the account creation process; therefore it is important to indicate a valid e-mail address. The account will be validated once you have clicked on the URL.

### 6.2 Home Page

#### 6.2.1 Header

The header includes:

- Welcome User : specifies the username you are using for logging in ;
   English : to select one of the supported languages;
- 3. 2: to load the Home page from any page of UPOV PRISMA.

#### 6.2.2 Dashboard

The "Drafter", "Authorized signatory", "Co-breeder admin" and "Breeder admin" are able to view the list of the applications they have started and/or submitted. In addition, the list also includes the applications for which the person is a "Co-drafter" or "Application data signatory".

Applications are divided into four tabs depending on their status:

- a. Pending: includes Pending and Pending copy.
  - i. <u>Pending:</u> The application data is drafted from scratch, saved but not yet submitted;
  - ii. <u>Pending Copy</u>: The application data is drafted based on an existing application data provided for the same variety but for other authorities, saved but not yet submitted;
- b. Imported : The data is imported (by user) to UPOV PRISMA from PVP office system.
- c. <u>Submitted:</u> The application data is transferred/made available to the designated PBR authority;

d. Combined: The "combined application data" combines all the provided answers per variety as identified by the breeder's reference

The following information is displayed and could not be modified:

- International Reference Number (IRN): Identifier assigned by the UPOV PRISMA system. It follows WIPO ST.13 standard for application numbers. It identifies a variety. When a same variety is submitted for different authorities, all corresponding application data will be assigned the same IRN. However, the IRN is unique per PBR authority. Therefore, for the same PBR authority, it is not possible to get more than one application data assigned the same IRN;
- 2. Modified On: Date when the application data is updated;
- 3. **Only for "Submitted" tab: Date of Submission:** Date when the application data is submitted ;
- 4. Crop: The crop to which the candidate variety belongs;
- 5. **Proposed Variety Denomination:** The denomination proposed by the submitter to identify the candidate variety;
- 6. **Breeder's Variety Reference:** This reference is provided by the submitter if required by the PBR authority. In this case, it is included in the application data transferred to the PBR authority. If provided, the variety breeder's reference should match the submitter's own reference;
- 7. **Submitter's Own Variety Reference:** This reference is provided by the submitter and IS NOT transferred to the PBR authority. It is used by the UPOV PRISMA system in order to identify a variety and assign a unique IRN;
- 8. PBR Authority: The PVP Office to which the application data is transferred;

# 9. Only for "Submitted" Tab: Applicant Payment Status :

- a. <u>NA:</u> The application data has not been submitted.
- b. <u>Pending Applicant's Payment:</u> The application data is submitted but the payment transaction failed;
- c. <u>Pending Payment Confirmation:</u> the application data is submitted, the payment transaction succeeded but the payment has not been received yet by the PBR authority;
- d. <u>Received:</u> the payment is received by the PBR authority;
- 10. Action: the list of possible links depends on the person's role. It is summarized in the table below.

	Edit	Pay	Delete	View	Sign	Co-Drafters Management	Assign Application Signatory	Assign Agent
Breeder Admin/ Co- Breeder Admin	х	х	х	х	х	х	х	х
Drafter	Х		Х	Х		Х	Х	Х
Co-Drafter	Х			Х				
Signatory		Х		Х	Х			

# 6.2.2.1 Search

It is possible to search by International Reference Number (IRN), Proposed Variety Denomination, Breeder's Variety reference and Submitter's Own Variety Reference. For that,

- 1. Enter the text in the box above the column.
- 2. The results are displayed on the fly.

ending Imported S	Submitted Con	nbined

**Note:** If a crop does not have a TQ form, the generic form will be used which does not include any guidance about characteristics and corresponding states of expression.

If necessary, the user can add or update the common name. This could be useful especially when a common name is not defined in the <u>GENIE Database</u>.

6. If you want to remove the added breeder, click on "Remove"

#### 6.4.5.1.5 DENOMINATION

**Note:** In UPOV PRISMA, the breeder's reference identifies a variety. Application data for the same variety can be used with different PBR authorities with different denominations, although the same denomination should be proposed for all PBR authorities in the first instance. In order to reuse answers of existing application data for the same variety, the "combined application data" combines all the provided answers per variety as identified by the breeder's reference. For this reason, it is recommended to provide the same breeder's reference for all application data of the same variety.

1. Provide an existing breeder's reference for the same authority and crop

Application Form	DENOMINATION	
APPLICANTS		
REPRESENTATIVE(S)/AGENT(S)		
SREEDER(S)	Proposed name for the variety 4 (a) *	DENOMINATION
V CORRESPONDENCE ADDRESS	Synonym- a synonym is an alternative name for a variety. Please note that once accepted, the synonym along with the name is also protected. A synonym

Application for Plant Breeder's Rights		
representation manual breeder's regris		

2. Click on "Save", an error message is displayed. It invites you to provide another breeder's reference

In some PBR authorities, the breeder's reference is not requested. For this reason, the submitter's own variety reference is requested at Settings page (§6.3).

In case you provide the submitter's own variety reference for PBR authorities requesting the breeder's reference, the data provided in filled in automatically in the form and it is not editable.

## 6.4.5.1.6 OTHER APPLICATIONS

4. Click on OK. The payment details will appear:

In the above case, the application fees should be paid directly to the designated PBR authority. Only the UPOV PRISMA payment is requested.

You can choose to pay by bank transfer or by credit card.

In the context of promotional campaigns, UPOV may distribute voucher codes that could be used to apply discounts on UPOV PRISMA Fees. If the discount is 100%, you will not be redirected to WIPO payment gateway.

Note: It is not possible to remove or edit submitted application data.

### 11. Check your mailbox.

Madam, Sir,

Please be notified that the applicant Hend Madhour has submitted an application for Lactuca sativa L. to NETHERLANDS as following:

International Reference Number	XU_30201600011846
Proposed Denomination	
Breeder's reference (if applicable)	NL Lettuce application data
Date of Submission	24/11/2016

Please find the application data at: https://webaccess.wipo.int/eaf/getApplication.zul?ApplicationId=11765

Best Regards,

The email notification is sent to the PBR authority if requested. If not, it will only be sent to the "submitter" of that application data. In the provided link, only the PBR authority and the applicant(s) can download the application data in a secure way after authentication.

**Note:** The "submitter" is the person who submitted the application data. It should have either the role of "authorized signatory", "co-breeder admin" or "breeder admin".

Another email notification with information about next steps for the selected authority and crop is sent to all users involved in drafting the application data.

The provided PDF contains questions in the accepted language for answers set by the Breeder in the Settings page (§6.3).

# 6.11 Edit

In the dashboard, an application data with a PENDING status has an "Edit" link in the action column.

**Note:** After saving, the application data appears as "PENDING" in your dashboard. If you are assigned the "Co-Drafter" role on this application data, you will see it also in your dashboard even if you have not started that application.

In order to resume drafting that application data:

- 1. Click on Edit Link
- 2. The form will be loaded and contains already provided answers.
- 3. Depending on your role, you can edit all or a part of the questions:

a. If you are a drafter, it is not possible to edit "Declaration and Signature" chapter
