³ You must indicate below **all** the designated Contracting Parties for which you want to renew this international registration. The renewal fee for designated Contracting Parties that have granted **partial** protection (i.e., for some goods and services only) in a statement under Rule 18ter (a final or further decision) and have declared for an individual fee per class, are calculated taking into account the number of classes for which protection has been granted. You may renew the international registration in respect of a Contracting Party that has **refused protection for all goods and services** in a final decision by filling in this item solely. In that case, the registration must be renewed in respect of that Contracting Party **for all the goods and services** for which it remains designated (i.e., those goods and services not affected by a limitation, a partial invalidation or a partial cancellation). This may be useful, pending the outcome of further proceedings in the Contracting Party concerned.
