- [i] indicate type of expression (QL, PQ, QN)
- [ii] indicate method of observation (VG, VS, MG, MS)
- [iii] example varieties to be provided for at least 2 states.

Explanation / Illustration (including extent of the use of the characteristic(s)):

Tests are carried out on 200 plants over two replicates.

Young plants are treated with Imazamox according to instruction on the product label. Observations are made approx. four weeks later:

Note	State	Description
1	Absent	Plants are yellow and dry, susceptible to Imazamox.
9	present	Plants can show some evidence of necrosis, but have green leaf, tolerant to Imazamox.

This characteristics has been included in the United Kingdom Test Protocol for many years.
