

Disclaimer: unless otherwise agreed by the Council of UPOV, only documents that have been adopted by the Council of UPOV and that have not been superseded can represent UPOV policies or guidance.

This document has been scanned from a paper copy and may have some discrepancies from the original document.

Avertissement: sauf si le Conseil de l'UPOV en décide autrement, seuls les documents adoptés par le Conseil de l'UPOV n'ayant pas été remplacés peuvent représenter les principes ou les orientations de l'UPOV.

Ce document a été numérisé à partir d'une copie papier et peut contenir des différences avec le document original.

Allgemeiner Haftungsausschluß: Sofern nicht anders vom Rat der UPOV vereinbart, geben nur Dokumente, die vom Rat der UPOV angenommen und nicht ersetzt wurden, Grundsätze oder eine Anleitung der UPOV wieder.

Dieses Dokument wurde von einer Papierkopie gescannt und könnte Abweichungen vom Originaldokument aufweisen.

Descargo de responsabilidad: salvo que el Consejo de la UPOV decida de otro modo, solo se considerarán documentos de políticas u orientaciones de la UPOV los que hayan sido aprobados por el Consejo de la UPOV y no hayan sido reemplazados.

Este documento ha sido escaneado a partir de una copia en papel y puede que existan divergencias en relación con el documento original.

INTERNATIONAL UNION FOR THE PROTECTION OF NEW VARIETIES OF PLANTS
GENEVA

**WORKING GROUP ON BIOCHEMICAL AND MOLECULAR
TECHNIQUES AND DNA-PROFILING IN PARTICULAR**

Fifth Session

Beltsville, United States of America, September 28 to 30, 1998

DRAFT AGENDA

prepared by the Office of UPOV

1. Opening of the Session
2. Adoption of the agenda (this document)
3. Short presentation of biochemical and molecular techniques: new techniques, advantages and limits of different techniques (this item could be illustrated with experimental data obtained in different species)
4. Assessment of variability within varieties (this item could be illustrated with experimental data obtained in different species)
5. Assessment of variability between varieties (this item could be illustrated with experimental data obtained in different species)
6. Statistical methods (this item could be illustrated with experimental data obtained in different species)
 - (a) Confidence intervals and accuracy of distance estimates
 - (b) Graphic representation of genetic distances

- (c) Refinement of the analysis of molecular variance (AMOVA) for distinction studies and tools to assess uniformity
 - (d) Combination of information from diverse data types (AFLP, SSR, morphological data, etc.)
7. Definition of variety (reports from the Technical Committee)
 8. Position of the breeders vis-à-vis DNA profiling
 9. The use of DNA profiling methods by expert witnesses in disputes on essential derivation
 10. The use of DNA-profiling for prescreening as a possible tool in DUS testing
 11. Possibilities and consequences of the introduction of DNA profiling methods for DUS testing
 12. Future program, date and place of the next session
 13. Closing of the session
