INTERNATIONAL UNION FOR THE PROTECTION OF NEW VARIETIES OF PLANTS

GENEVA

ADMINISTRATIVE AND LEGAL COMMITTEE

Tenth Session

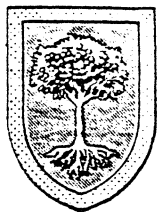

Geneva, November 16 and 17, 1982

COOPERATION WITH INTERNATIONAL
REGISTRATION AUTHORITIESDocument prepared by the Office of the Union

1. At its ninth session, the Administrative and Legal Committee decided, after a short examination of the question, to request the Office of the Union to ask for the list of the International Registration Authorities for cultivar names--established under the International Code of Nomenclature for Cultivated Plants--and of the species concerned, this information being intended to serve as a basis for the examination of the advisability of cooperation with those Authorities and the conditions under which it would take place (see paragraph 25 of document CAJ/IX/10).

2. The answer to the request of the Office of the Union appears in Annex I. It will be noted that it also contains considerations pertaining to the Recommendations Concerning Article 13 of the Convention. Annex II contains the list of the International Registration Authorities as communicated, i.e. in the alphabetical order of the taxa. A more succinct list drawn up in the order of the names of the authorities appears in Annex III.

[Annexes follow]

*The Royal Horticultural Society's Garden,
Wisley, Woking,
Surrey. GU23 6QB*

All communications should be
addressed to "The Director."

ACL/JAC

4th August, 1982.

Dr. H. Mast,
Union Internationale pour la Protection des Obtentions Végétales,
P.O.B. 18,
34, Chemin des Colombettes,
1211 Genève 20,
SWITZERLAND.

Dear Dr. Mast,

* Thankyou for your letter of 12 July and please accept my apologies for the delay in replying, but I have been away on leave. I enclose a list of all the International Registration Authorities and as you will see quite a few concern groups not yet covered by all UPOV members. Consequently any additional cost in correspondence would be limited to the relatively few groups covered by both organisations. A standard letter, with the generic and cultivar names under consideration to be filled in, would surely make this a fairly painless operation.

I also hope that when your Committee meets some consideration can be given to the use of code names (as explained in my letter of 5 April*), which we deplore. If their use is to be condoned I would appreciate some indication of why they are necessary!

Finally, in correspondence with your UPOV colleagues in France the question has arisen of re-use of cultivar names. I appreciate that at the moment UPOV may not be able to dictate policy on this matter, but we would strongly urge that there is a recommendation not to re-use names. It is often claimed by commercial firms that once a plant has dropped out of widespread commercial production that plant's name can be re-used. This can only lead to considerable confusion. No-one can be certain that it is not still under production somewhere in the world and in any case once a name is in print that reference is established for ever and cannot be erased. Any other plant given that same name will then be a potential source of confusion - however long ago the original plant was named. For example in the 19th century there were more than 40 border carnations given the name 'Defiance' and this name, used without qualification, has little meaning and although the latest of these plants was raised pre-1916 no other Dianthus can be allowed to take the name 'Defiance'. Therefore is it possible for UPOV to make a strong recommendation to prevent the re-use of cultivar names? As your Article 13(2) states '... the denomination must enable the variety to be identified' and it cannot do this if there is another plant of the same name - even if that other plant only exists as a name in the literature.

Continued/

* See Annex II to document CAJ/IX/10.

Dr. H. Mast

4th August, 1982.

I regret having to continually bring such difficult questions to your attention but am concerned that cultivar nomenclature should be as clear and consistent as possible.

I look forward to hearing from you again.

Yours sincerely,

Alan C. Leslie

Dr. A.C. Leslie
Registration Officer
for Director.
