

**Meeting on Electronic Applications****EAM/4/6****Fourth meeting  
Geneva, October 22, 2024****Original:** English  
**Date:** December 20, 2024

---

**REPORT***adopted by the Meeting on Electronic Applications**Disclaimer: this document does not represent UPOV policies or guidance***WELCOME AND OPENING**

1. The fourth meeting on electronic applications (EAM/4 meeting), which was held as a hybrid meeting, was opened and chaired by Mr. Martin Ekvad, Director of Legal Affairs of UPOV, who welcomed the participants.
2. The list of participants is reproduced in Annex I to this report.

**APPROVAL OF THE AGENDA**

3. The meeting adopted the draft agenda as proposed in document UPOV/EAM/4/1.

**DEVELOPMENTS CONCERNING UPOV e-PVP**Overview of UPOV e-PVP

4. The meeting considered document UPOV/EAM/4/2 "Overview of UPOV e-PVP" and received a presentation by the Office of the Union on the:
  - Current and future use of UPOV e-PVP;
  - Financing of UPOV e-PVP components, including the strategy to sustain standard module support.
5. A copy of the presentation is reproduced in Annex II to this document.

UPOV PRISMA

6. The meeting considered document UPOV/EAM/4/3 "UPOV PRISMA" and received a presentation by the Office of the Union on the developments concerning UPOV PRISMA since the third Meeting on Electronic Applications ("EAM/3 meeting"), a copy of which is reproduced in Annex II to this document.

*Use of UPOV PRISMA (as of September 30, 2024)*

7. The participants noted the information on the use of UPOV PRISMA as of September 30, 2024, as reported in Annex II of this report.

*Launch of Version 2.10 (November 2024)*

8. The participants noted that the second part of UPOV PRISMA Version 2.10 will be deployed in November 2024, with the following updates:
  - Addition of 9 new crops for China;

- Addition of Ghana as a new participating country, in addition to United Republic of Tanzania (already joined in September 2024);
- Bulk invoice.

### *Launch of Version 3.0 (2025)*

9. The participants noted that UPOV PRISMA Version 3.0 will be deployed in 2025, with the following updates:

- Move to the cloud;
- New user interfaces;
- Improvement of user management;
- Improvement of bulk upload;
- Accessibility;
- Morocco: 1 new crop (tomato rootstocks);
- Serbia: 1 new crop (sunflower);
- Türkiye: national listing.

### *Other developments*

#### Improvement of user-friendliness of UPOV PRISMA

10. The participants noted the summary of the progress of updating the PVP Office procedure presented during the Task Force meeting held on May 15, 2024. Eighty-four per cent of the procedures have been updated.

11. The participants noted that the participating Authorities have been requested to provide information about their national fees and whether or not those fees are subsidized.

12. The participants noted that the information on national fees will be implemented as a new section in the PVP Office procedure.

13. The participants noted that one-to-one meetings were organized with two authorities out of the top five that receive application data via UPOV PRISMA, namely Canada and South Africa. The following questions were discussed:

- Whether it would be possible to make UPOV PRISMA mandatory: the main challenge is how to convince the applicants to add the extra UPOV fees to their costs. What are the incentives of doing that from applicant and PVP Office perspective?
- Whether to add coverage to the National Listing;
- Raise awareness of UPOV PRISMA: it was agreed to arrange joint information sessions with the focal points of the UPOV members participating in UPOV PRISMA and the UPOV PRISMA users (breeders and agents). The time and date of the sessions will be agreed jointly and communicated to relevant interested parties;
- Fees' structure.

14. The participants noted the presentation of the International Seed Federation (ISF) about the Breeders' perspective on the use of UPOV PRISMA, a copy of which is reproduced in Annex II of this document (slides 19 to 24).

15. Uruguay and Colombia shared their experiences and challenges concerning UPOV PRISMA, in particular on the costs and user adoption. Canada shared its strategy to encourage the use of UPOV PRISMA through a fee mechanism that would, in essence, allow applicants to pay a lower application fee for applications filed through UPOV PRISMA.

#### Form synchronization

16. The participants noted the importance of maintaining up-to-date synchronization between the PVP Offices and their most recent forms. The participating authorities are invited to inform the UPOV PRISMA Team on changes in application forms or national TQs promptly. Moreover, PVP Offices are encouraged to annually verify, with the UPOV PRISMA focal points, that the mentioned forms used in UPOV PRISMA are up-to-date.

17. The participants noted that the CPVO and UPOV are discussing the timelines in relation to the completion of synchronization projects, taking into account the available resources.
18. The participants noted the new procedure for updating the TQ forms:
- After the adoption of a Test Guidelines (TG) by the TC, the UPOV PRISMA Team will ask the PVP Offices charged with handling each non-UPOV language to make the necessary translations;
  - Within four months after the request for translation, upon publication of the TG, the relevant translated TQ will become accessible in UPOV PRISMA;
  - Should a PVP Office not be able to provide a translation within four months, it is agreed that the English version be used for filing an application via UPOV PRISMA.

#### UPOV e-PVP Administration Module

##### *Developments since the EAM/3 Meeting*

19. The participants noted that, as of September 30, 2024, four application data had been transferred to the Admin Module to one member using UPOV PRISMA, from three companies and for four different crops.
20. The participants noted that the United Kingdom signed the Terms of use on August 23, 2024. The United Kingdom will start using a customized version of the UPOV e-PVP Admin Module in 2025.
21. The participants noted the presentation of the United Kingdom on the UPOV e-PVP Project, "Customisation for the UK", a copy of which is reproduced in Annex II of this document (slides 36 to 45).

##### *Joining requirements*

22. The participants noted the proposal to the Consultative Committee to provide access to the UPOV e-PVP platform during a trial period of three years to non-UPOV members having already received a positive advice from the UPOV Council on the conformity of their (draft) law with the UPOV Convention.

##### *Future developments*

23. The participants noted that, as of January 1, 2025, Viet Nam will migrate all their data to the UPOV e-PVP Admin Module.
24. The participants noted that, in 2025, the United Kingdom will migrate all their data to the UPOV e-PVP Admin Module and will start using the existing and customized functionalities.

#### DUS Exchange Module

##### *UPOV e-PVP DUS Report Exchange Module Features*

##### Developments since EAM/3

25. The participants noted that seven DUS reports had been exchanged between the Kingdom of the Netherlands and Viet Nam since September 30, 2024.
26. The participants noted that in the new release planned in November 2024, eight additional Authorities will join the UPOV e-PVP DUS Exchange Module:
- Brazil;
  - Canada;
  - European Union;
  - Georgia;
  - Ghana;
  - Morocco;
  - New Zealand;
  - United States of America.

27. The participants noted that the United Kingdom will start using the e-PVP DUS Exchange Module in 2025.

28. The participants noted that Japan intended to use the e-PVP DUS Exchange Module, and that it will communicate when it will start using it.

29. The participants noted that a test campaign had been conducted from May 15 to June 7, 2024. UPOV members, who had already expressed their interest in participating in the UPOV e-PVP DUS Exchange Module as of May 15, 2024, were invited to test the tool. China, Japan and the United Kingdom were also invited to participate upon their request.

30. The participants noted that feedback had been received from Brazil, Canada, China, Japan, the Kingdom of the Netherlands, New Zealand and the European Union.

31. The participants noted that the following changes had been implemented in the DUS Exchange Module since the last update:

- Extend the support of browser's languages to new languages including Dutch, Chinese and Portuguese. Users can now keep their default browser language and view the interface and content in English if their national language is different from English, French, Spanish, German, Japanese or Vietnamese;
- Update the breeder's name when editing a request. Users can now correct or modify the name of the breeder when they edit an existing request for a DUS report;
- Display the full botanical name along with the UPOV code. Users can now see the full scientific name of the plant species or genus in addition to the UPOV code when they search;
- When raising a request, remove the link to the application when the requesting PVP Office is not using the UPOV e-PVP Admin Module. Users can now avoid confusion and unnecessary clicks when they raise a request for a DUS report from an Office that does not use the admin module to manage applications;
- Remove the possibility to download a report when it is decommissioned. Decommissioned reports will be marked as such and will not have a download option;
- Support of regional authorities, e.g. the European Union (EU), in addition to countries. Users can now select EU as the requesting or source authority for a DUS report, as well as individual member States of the EU. This will facilitate the exchange of reports with the EU (and with other individual authorities).

#### *Why join?*

32. The participants noted the following benefits of joining UPOV e-PVP DUS Exchange module:

- Streamline and centralize the provision of reports;
- Connect with UPOV members to take over or commission DUS reports;
- Easy to find the designated focal point per authority to which requests should be addressed;
- Advertise information about available reports.

#### *Future developments*

33. The participants noted that customization is needed for the European Union and the United Kingdom.

#### DATE OF NEXT MEETING

34. The next meeting of the EAM was agreed to be held by internet means on Monday March 17, 2025.

35. *This report was adopted by correspondence.*

[Annex I follows]

## ANNEXE I / ANNEX I / ANEXO I

LISTE DES PARTICIPANTS / LIST OF PARTICIPANTS / LISTA DE PARTICIPANTES

*(dans l'ordre alphabétique des noms français des membres / in the alphabetical order of the French names of the members / por orden alfabético de los nombres en francés de los miembros)*

I. MEMBRES / MEMBERS / MIEMBROSAFRIQUE DU SUD / SOUTH AFRICA / SUDÁFRICA

Andani Robert MADZINGE (Mr.), Registrar: Plant Breeders' Rights Act, Directorate: Genetic Resources, Department of Agriculture, Land Reform and Rural Development, Pretoria  
(e-mail: AndaniMA@dalrrd.gov.za)

Elna DE BRUYN (Ms.), Scientist Production: Plant Breeders' Rights Office, Department of Agriculture, Land Reform and rural Development, Pretoria  
(e-mail: elnadb@dalrrd.gov.za)

CANADA / CANADA / CANADÁ

Anthony PARKER (Mr.), Commissioner, Plant Breeders' Rights Office, Canadian Food Inspection Agency (CFIA), Ottawa  
(e-mail: anthony.parker@inspection.gc.ca)

Ashley BALCHIN (Ms.), Senior Examiner, Plant Breeders' Rights Office, Canadian Food Inspection Agency (CFIA), Ottawa  
(e-mail: ashley.balchin@inspection.gc.ca)

Renée CLOUTIER (Ms.), Examiner, Plant Breeders' Rights Office, Canadian Food Inspection Agency (CFIA), Ottawa  
(e-mail: Renee.Cloutier@inspection.gc.ca)

Sarah GRENIER (Ms.), Program Officer, Plant Breeders' Rights Office, Canadian Food Inspection Agency (CFIA), Ottawa  
(e-mail: sarah.grenier@inspection.gc.ca)

COLOMBIE / COLOMBIA / COLOMBIA

Alfonso Alberto ROSERO (Sr.), Director Técnico de Semillas, Subgerencia de Protección Vegetal, Instituto Colombiano Agropecuario (ICA), Bogotá  
(e-mail: alberto.rosero@ica.gov.co)

ÉGYPTE / EGYPT / EGIPTO

Shymaa ABOSHOSHA (Ms.), Agricultural Engineer, Plant Variety Protection Office (PVPO), Central Administration for Seed Testing and Certification (CASC), Giza  
(e-mail: sh\_z9@hotmail.com)

ESPAGNE / SPAIN / ESPAÑA

Carlos SANZ ZUDAIRE (Mr.), Head of Registry, Oficina Española de Variedades Vegetales (MPA y OEVV), Madrid  
(e-mail: csanz@mapa.es)

Juan GALVAÑ (Mr.), Quality Assesment, Oficina Española de Variedades Vegetales (OEVV), Madrid  
(e-mail: at\_sgmpaoevv24@mapa.es)

ÉTATS-UNIS D'AMÉRIQUE / UNITED STATES OF AMERICA / ESTADOS UNIDOS DE AMÉRICA

Ruihong GUO (Ms.), Deputy Administrator, AMS, Science & Technology Program, United States Department of Agriculture (USDA), Washington D.C.  
(e-mail: ruihong.guo@usda.gov)

Jeffery HAYNES (Mr.), Commissioner, Plant Variety Protection Office, AMS, Science & Technology Program, United States Department of Agriculture (USDA), Washington D.C.  
(e-mail: Jeffery.Haynes@usda.gov)

FRANCE / FRANCE / FRANCIA

Yvane MERESSE (Mme), Responsable de l'Instance Nationale des Obtentions Végétales (INOV), Groupe d'Étude et de Contrôle des Variétés et des Semences (GEVES), Beaucauzé  
(e-mail: yvane.meresse@geves.fr)

JAPON / JAPAN / JAPÓN

Minori HAGIWARA (Ms.), Director for International Affairs on Plant Variety Protection, Plant Variety Protection Office, Intellectual Property Division, Export and International Affairs Bureau, Ministry of Agriculture, Forestry and Fisheries (MAFF), Tokyo  
(e-mail: minori\_hagiwara110@maff.go.jp)

Hiroaki KINOSHITA (Mr.), International Relation Officer, Plant Variety Protection Office, Intellectual Property Division, Export and International Affairs Bureau, Ministry of Agriculture, Forestry and Fisheries (MAFF), Tokyo  
(e-mail: hiroaki\_kinoshita640@maff.go.jp)

Yoshiyuki OHNO (Mr.), Examiner, Intellectual Property Division, Export and International Affairs Bureau, Ministry of Agriculture, Forestry and Fisheries (MAFF), Tokyo  
(e-mail: yoshiyuki\_ono300@maff.go.jp)

MAROC / MOROCCO / MARRUECOS

Zoubida TAOUSSI (Mme), Responsable de la protection des obtentions végétales, Office National de Sécurité Sanitaire de Produits Alimentaires (ONSSA), Rabat  
(e-mail: ztaoussi67@gmail.com)

MEXIQUE / MEXICO / MÉXICO

Raymundo Jesus ROSARIO REYES (Sr.), Subdirector de Registro y Control de Variedades, Servicio Nacional de Inspección y Certificación de Semillas (SNICS), Secretaria de Agricultura y Desarrollo Rural (Agricultura), Ciudad de México  
(e-mail: raymundo.rosario@snics.gob.mx)

NOUVELLE-ZÉLANDE / NEW ZEALAND / NUEVA ZELANDIA

Christopher James BARNABY (Mr.), PVR Manager / Assistant Commissioner, Plant Variety Rights Office, Intellectual Property Office of New Zealand, Ministry of Economic Development, Christchurch  
(e-mail: Chris.Barnaby@pvr.govt.nz)

PARAGUAY / PARAGUAY / PARAGUAY

Santiago Gaspar BENÍTEZ VERA (Sr.), Director, Dirección de Semillas (DISE), Servicio Nacional de Calidad y Sanidad Vegetal y de Semillas (SENAVE), San Lorenzo  
(e-mail: santiago.benitez@senave.gov.py)

Dahiana Maria OVEJERO MALDONADO (Sra.), Jefa, Departamento de Protección y Uso de Variedades, Dirección de Semillas (DISE), Servicio Nacional de Calidad y Sanidad Vegetal y de Semillas (SENAVE), San Lorenzo  
(e-mail: dahiana.ovejero@senave.gov.py)

PAYS-BAS (ROYAUME DES) / NETHERLANDS (KINGDOM OF THE) / PAÍSES BAJOS (REINO DE LOS)

Bernadette REGEER (Ms.), Coordinating policy advisor, Phytosanitary Affairs and Propagating material, DG Agro & Nature, Ministry of Agriculture, Nature and Food Quality, Den Haag  
(e-mail: b.regeer@minlnv.nl)

Jan MEILING (Mr.), Director, Naktuinbouw, Roelofarendsveen  
(e-mail: j.meiling@naktuinbouw.nl)

Marco HOFFMAN (Mr.), Senior Policy Officer, Naktuinbouw, Roelofarendsveen  
(e-mail: m.hoffman@naktuinbouw.nl)

Monique HOOGENBOOM (Ms.), Policy Officer, Naktuinbouw, Roelofarendsveen  
(e-mail: m.hoogenboom@naktuinbouw.nl)

Raoul HAEGENS (Mr.), Domain Head of the Identity and Variety Testing Department, Naktuinbouw, Roelofarendsveen  
(e-mail: r.haegens@naktuinbouw.nl)

Wim SANGSTER (Mr.), Crop Specialist, Naktuinbouw, Roelofarendsveen  
(e-mail: w.sangster@naktuinbouw.nl)

RÉPUBLIQUE DE CORÉE / REPUBLIC OF KOREA / REPÚBLICA DE COREA

Hwansu HWANG (Mr.), Forest Researcher, Plant Variety Protection Division, National Forest Seed Variety Center (NFSV), Chungcheongbuk-do  
(e-mail: hwansu3368@korea.kr)

RÉPUBLIQUE DE MOLDOVA / REPUBLIC OF MOLDOVA / REPÚBLICA DE MOLDOVA

Ala GUSAN (Ms.), Principal Consultant, Patents Division, State Agency on Intellectual Property of the Republic of Moldova (AGEPI), Chisinau  
(e-mail: ala.gusan@agepi.gov.md)

RÉPUBLIQUE-UNIE DE TANZANIE / UNITED REPUBLIC OF TANZANIA / REPÚBLICA UNIDA DE TANZANÍA

Patrick NGWEDIAGI (Mr.), Director General, Tanzania Official Seed Certification Institute (TOSCI), Morogoro  
(e-mail: dg@tosci.go.tz)

Joyce Eligi MOSILE (Ms.), Principal Agricultural Officer II, Plant Breeders' Rights Office, Ministry of Agriculture (MoA), Dodoma  
(e-mail: Joyce.mosile@kilimo.go.tz)

ROUMANIE / ROMANIA / RUMANIA

Teodor Dan ENESCU (Mr.), Counsellor, State Institute for Variety Testing and Registration (ISTIS), Bucarest  
(e-mail: enescu\_teodor@istis.ro)

ROYAUME-UNI / UNITED KINGDOM / REINO UNIDO

Kat DEEKS (Ms.), Plant Variety and seeds policy Team Leader, Department for Environment, Food and Rural Affairs (Defra), Cambridge  
(e-mail: katherine.deeks@defra.gov.uk)

Sigurd RAMANS-HARBOROUGH (Mr.), Senior Policy Advisor, Plant Varieties and Seeds, Department for Environment, Food and Rural Affairs (Defra), Cambridge  
(e-mail: Sigurd.RamansHarborough@defra.gov.uk)

Peter SCOTTING (Mr.), Lead on Plant Breeders Rights and Variety Listing, Animal and Plant Health Agency (APHA), Cambridge  
(e-mail: peter.scotting@apha.gov.uk)

John HOWLETT (Mr.), Head of Plant Variety and Seeds (PVS), Animal and Plant Health Agency (APHA), Cambridge  
(e-mail: john.howlett@apha.gov.uk)

Caroline POWER (Ms), PBH Subject Matter Expert for Delivering Sustainable Futures Programme, Senior Executive Officer (TARA), Animal and Plant Health Agency (APHA), Cambridge  
(e-mail: caroline.power@apha.gov.uk)

Hilary PAPWORTH (Ms.), Senior Technical Manager, NIAB, Cambridge  
(e-mail: hilary.papworth@niab.com)

Margaret WALLACE (Ms.), Joint Head of Agricultural Crop Characterisation, NIAB, Cambridge  
(e-mail: margaret.wallace@niab.com)

SERBIE / SERBIA / SERBIA

Gordana LONCAR (Ms.), Senior Adviser for Plant Variety protection, Plant Protection Directorate, Group for Plant Variety Protection and Biosafety, Ministry of Agriculture, Forestry and Water Management, Belgrade  
(e-mail: gordana.loncar@minpolj.gov.rs)

SUISSE / SWITZERLAND / SUIZA

Manuela BRAND (Ms.), Plant Variety Rights Office, Plant Health and Varieties, Office fédéral de l'agriculture (OFAG), Bern  
(e-mail: manuela.brand@blw.admin.ch)

UNION EUROPÉENNE / EUROPEAN UNION / UNIÓN EUROPEA

Jean MAISON (Mr.), Head of Unit ad interim, Plant Variety Expertise Unit, Community Plant Variety Office (CPVO), Angers  
(e-mail: maison@cpvo.europa.eu)

URUGUAY / URUGUAY / URUGUAY

Federico BOSCHI (Mr.), Técnico, Evaluación y Registro de Cultivares, Instituto Nacional de Semillas (INASE), Canelones  
(e-mail: fboschi@inase.uy)

## Financing UPOV e-PVP

- Document CC/104/04 outlines financing options for UPOV e-PVP
- **Current funding sources:**
  - Fees from UPOV PRISMA and PLUTO users
  - Special funds from Japan and the Kingdom of the Netherlands
  - UPOV regular budget
- **Strategy to sustain standard module support:**
  - Liaise with PVP Offices and users
  - Promote UPOV e-PVP usage to increase revenue
  - Proposal for **multilateral donor fund:**
    - To be considered by the Consultative Committee in October 2024

UPOV

12

## PREVIEW

- Use of UPOV PRISMA
- Plans 2024-2025
- Other developments
  - User-friendliness of UPOV PRISMA
  - Form synchronization
  - Feedback from breeders

UPOV

13

## User-friendliness of UPOV PRISMA : continuous feedback collection from the stakeholders

UPOV PRISMA Task Force meeting on May 15, 2024  
Next TF meeting : November 19, 2024

Authorities requested to provide information on national fees and subsidies.

84% PVP office procedure updated  
Proposal to include national fees information in PVP Office Procedure

Finance-related information session held on June 12, 2024, with 22 participants

New videos and dedicated webpage developed for payment process guidance

September 2024: One-to-one meetings organized with Canada, Türkiye, South Africa and United states of America

UPOV

14

## One-to-One meetings: Discussion topics

Whether or not it is possible to make UPOV PRISMA mandatory

Whether or not to add National Listing in the coverage

Raise awareness of UPOV PRISMA through joint webinars.

Fees structure

UPOV

15

## PREVIEW

- Use of UPOV PRISMA
- Plans 2024-2025
- **Other developments**
  - User-friendliness of UPOV PRISMA
  - **Form synchronization**
  - Feedback from breeders

UPOV

16

## Form synchronization

### Ensure synchronization between PVP Offices and latest forms

Inform UPOV PRISMA team of changes in application forms or national technical questionnaires promptly  
Annual verification with UPOV PRISMA focal points

### CPVO and UPOV discussing timelines for projects

### Responsibility of UPOV to keep UPOV TQ forms up to date

Version 2.10: Revised TQ forms to align with latest versions

Procedure for updating TQ forms:

- Distribute translations of TG after TC adoption
- Publish TQ in all languages four months after TG publication
- If translation is incomplete, use English version

UPOV

17

## PREVIEW

- Use of UPOV PRISMA
- Plans 2024-2025
- **Other developments**
  - User-friendliness of UPOV PRISMA
  - Form synchronization
  - **Feedback from breeders**

UPOV

18

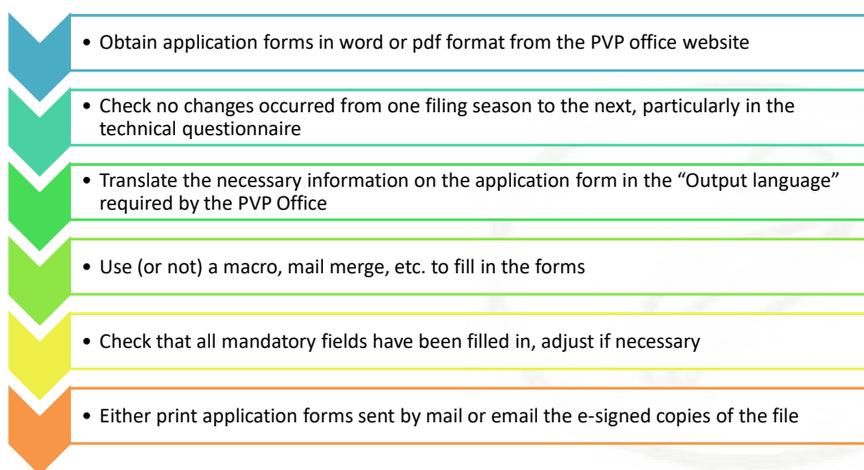

## Breeders' perspective on the use of **UPOV PRISMA**

Rose-Lyne Schottler  
Emerson Limberger

Geneva, 22<sup>nd</sup> of October 2024

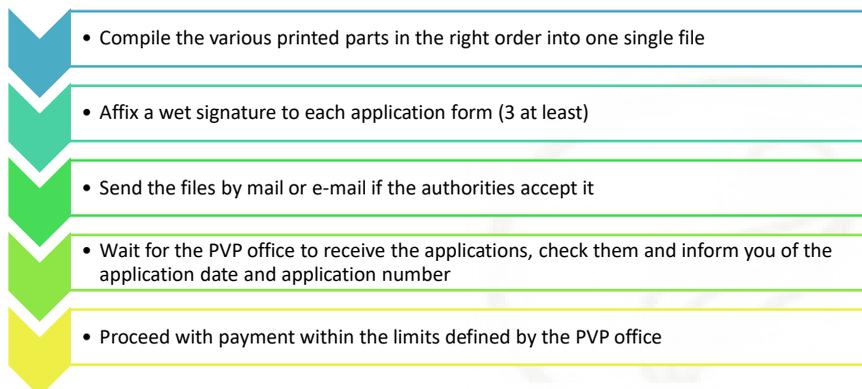

19

### Paper application

- 
- Obtain application forms in word or pdf format from the PVP office website
  - Check no changes occurred from one filing season to the next, particularly in the technical questionnaire
  - Translate the necessary information on the application form in the "Output language" required by the PVP Office
  - Use (or not) a macro, mail merge, etc. to fill in the forms
  - Check that all mandatory fields have been filled in, adjust if necessary
  - Either print application forms sent by mail or email the e-signed copies of the file

20

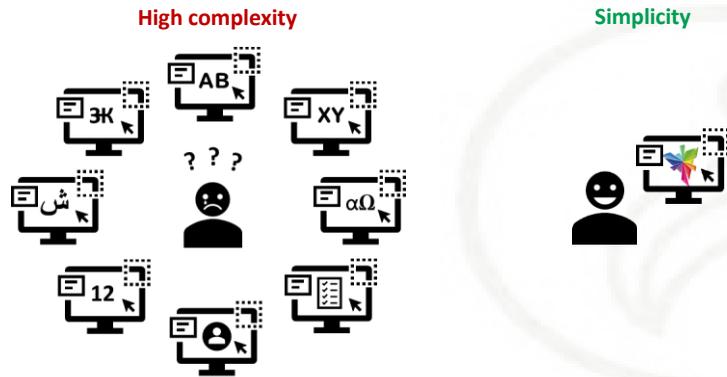

## Paper application

## Advantages of applying for PVP electronically

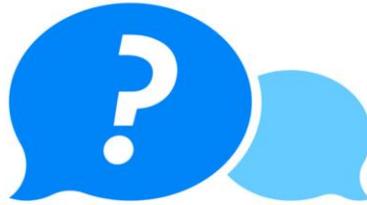

- **Time efficient:** The process of filing the forms, mailing, receiving, and processing physical documents adds significant delays which can sometimes be crucial (novelty requirement)
- **No risk of loss or damage:** Physical documents can be lost or damaged during transit, which can lead to delays or the need to resubmit the application
- **Lower costs:** There are additional costs associated with printing, packaging, and postage. If any documents need to be resubmitted, these costs can add up
- **Tracking information:** it is possible to track all steps of the application, with instant filing receipt
- **Lower environmental impact:** Using paper and physical mail contributes to environmental waste

## UPOV PRISMA as the WhatsApp for PVP

## Software advantages

	UPOV PRISMA	Other tools
One user interface for all applications		
Automatic translation functionality		
Same format for information collection		
One helpdesk and contact for support		
Allows for automated file preparation		
Optimizes resources for development		
Leverage applications across authorities		
User roles, relationship and hierarchy		
Bulk upload option		

25

UPOV

25

## UPOV PRISMA Bulk Upload

Advantages over the manual typing web-forms:

1. **Configuration** of a template the user downloads, completes and uploads
2. **Simplification:** ability to submit multiple applications in one click
3. **Gain in time:** after compiling the information, the file is ready to be submitted. Further gain in time can be obtained by the implementation of business intelligence tools by the breeders to retrieve the information
4. **Error reduction:** there is no risk of typos or pasting the information in the incorrect form

26

## Celebration

- ✓ UPOV's outstanding and responsive IT team
- ✓ Prisma bulk upload deployed in 2021 together with the CPVO
- ✓ Bulk invoice on demand, deployed in October 2024
- ✓ Welcome the contribution from UPOV members that use UPOV PRISMA and e-PVP without additional requests
- ✓ Appreciate that UPOV PRISMA and e-PVP PVP will help UPOV to evolve toward a **harmonized** PVP application, and facilitate **exchange of DUS** data, and **relying on** each other's DUS data

## UPOV e-PVP Project: Customisation for the UK

**Author:** Caroline Power

APHA PBH Subject Matter Expert  
Delivering Sustainable Futures Programme

36

## Background

In 2023, as part of APHA's Plant and Bee Health Transformation Programme a discovery into Plant Varieties & Seeds Services was completed. As an outcome, UPOV e-PVP was recommended as a solution that will streamline processes, improve customer service delivering effectively and efficiently.

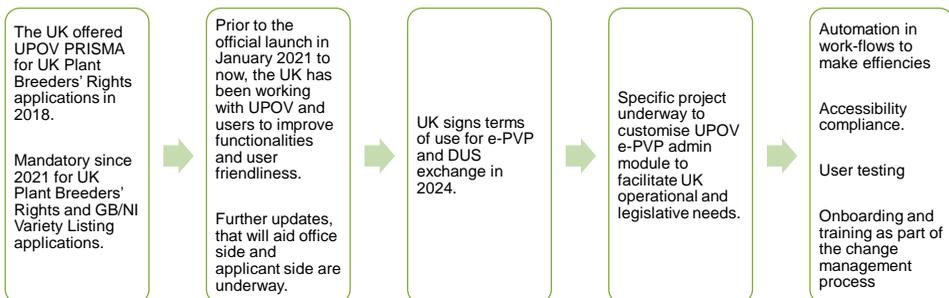

This project now being under the wider APHA Delivering Sustainable Futures Programme is aligning with the agency's strategic outcomes.

37

37

## Milestones

38

## Making an Application

- Applications for GB/NI Variety Listing and UK Plant Breeders' Rights must be submitted via [UPOV PRISMA](#).

[Go to UPOV PRISMA](#)

### When starting an application:

- Select crop/species based on botanical name in UK
- Choose to apply for PBR only, VL only or both
- Select the crop sector that applies, note this feature is under development
- The botanical name and classification (Agricultural or Vegetable) is derived from the UK regulations: [Plant species: variety list for Great Britain and Northern Ireland - GOV.UK \(www.gov.uk\)](#)

1. Select Crop/Species  
 Crop/species with previous applications  Search all crop/species  
Oilseed

2. Select Authority  
UNITED KINGDOM

2.a Application data for  
 PBR  National Listing (Variety Listing)

2.b Crop Sector  
 Agricultural  Vegetables  Fruit  Ornamental

3. Select Language for answers  
Application Form: English

Technical Questionnaire: English

Author: Caroline Power (APHA)

Animal & Plant Health Agency

39

## Completing a TQ

- Provided the correct crop/species selection has been made at the start of the application process, the TQ should be aligned with the relevant Test Guidelines and Protocols/Procedures.

An example, Oilseed rape is TQ TG/36:

Crop/Species: Brassica napus var. napus (Oilseed Rape, Rapeseed, Swede Rape)  
Authority: GB  
PRV: NUI\_302040000402  
Submission Date:

Technical Questionnaire (TG/36)

INFORMATION ON THE BREEDING SCHEME AND PROPAGATION OF THE VARIETY

Would you like to request to treat the information provided in this section as confidential information?  Yes  No

Variety resulting from crossing

controlled cross

partially known cross

### Important:

- Any information relating to the variety for which you wish to be considered, **must be provided on the TQ**. There are various text boxes and placeholders to allow for this.

Author: Caroline Power (APHA)

Animal & Plant Health Agency

40

- In some cases, TQs have been tailored to include UK specific questions which aid Test & Trial preparations.
- To avoid the submission of incomplete applications, questions deemed mandatory cannot be left blank. The PRISMA tool will notify which questions need further attention.
- If the variety requires VCU, there is a VCU section that must be completed.
- If the variety is GM, there is a declaration section that must be completed.
- If the variety is a hybrid, parental TQs must also be completed using the parental line features.
- Copy functions help if reusing parental lines for different applications, to avoid completing again. The parental line information is stored for future use in the system.
- There is the option to opt for the TQs to be confidential.

The screenshot shows a multi-step application form. The first step is '1. PARENTAL LINES', the second is '2. Technical Questionnaire', and the third is '3. Declaration And Signature'. The '2. Technical Questionnaire' section includes several sub-sections: 'Group 1' with questions about Spring and Winter advanced rape and storage rape; 'Group 2' with questions about Low and High glucosinolate content; and 'Group 3' with questions about whether the candidate is a semi-dwarf variety and if a semi-dwarf variety is defined as one with the CO-1 gene or other defined specific events. There are also buttons for 'Insert', 'Save', and 'Cancel'.

- Future developments

UPOV

47

## Developments since EAM/3

Test Campaign (May 15 to June 7, 2024): 13 authorities.

Feedback received from Brazil, Canada, China, Japan, New Zealand and the European Union.

Main changes in the next release:

- Support of new browser's languages
- Support of regional authorities (European Union) in addition to countries.

UPOV

48

## Why to join?

Streamline and centralise the sales of report

Connect with UPOV members to take over or commission DUS reports

Designate a focal point per authority to which requests are addressed

Advertise information about available reports
