## BACKGROUND

5. The TC, at its fifty-third session, held in Geneva from April 3 to 5, 2017, considered document TC/53/5 "TGP documents" and noted the information from the TWO that some charts of the 1986 Edition and later versions of the RHS Colour Chart had different colors than the same charts in the Sixth Edition of that document. The TC endorsed the proposal by the TWO that document TGP/14 "Glossary of terms used in UPOV documents" should be revised to replace the current list of UPOV Color Groups by a new list created on the basis of the Sixth Edition of the RHS Colour Chart (see document TC/53/31 "Report", paragraphs 142 to 144).

6. The TC noted the discussions in the TWO on whether the UPOV color groups for the RHS Colour Charts could be used for grouping of varieties and organization of the growing trial and that the TWO had agreed that the difference between UPOV color groups was smaller than would be appropriate for excluding varieties from comparison in a growing trial.

7. The TC noted that the TWO had requested the expert from Germany, with support by the experts from Australia, Canada, European Union, the Netherlands, New Zealand and the United Kingdom, to draft guidance on the factors to be considered for creating color groups for grouping of varieties and organizing the growing trial.

## DEVELOPMENTS AT THE TECHNICAL WORKING PARTY FOR ORNAMENTAL PLANTS AND FOREST TREES

### UPOV Color Groups

8. The TWO, at its fiftieth session, held in Victoria, British Columbia, Canada, from September 11 to 15, 2017, considered documents TWO/50/4 "UPOV color groups" and TWO/50/4 Add. "UPOV color groups - Addendum" (see document TWO/50/14 "Report", paragraphs 43 to 45).

9. The TWO agreed to propose the revision of the list of UPOV Color Groups in document TGP/14 "Glossary of Terms used in UPOV Documents" on the basis of the color groups set out in document TWO/50/4, paragraph 8, subject to confirmation of color groups 69 to 71 (light, medium and dark grey) by the expert from Germany.

10. Following the request by the TWO, the expert from Germany made the following proposal of new color group names to address replace light, medium and dark grey:

| New Group No. | Considered at TWO/50 | Confirmed groups |
|---------------|----------------------|------------------|
| [...]         | [...]                | [...]            |
| 69            | light grey           | yellow grey      |
| 70            | medium grey          | brown grey       |
| 71            | dark grey            | purple grey      |
| 72            | black                | grey             |
| 73            | <i>none</i>          | black            |

11. Annex I to this document reproduces the UPOV Color Groups agreed by the TWO at its fiftieth session with the amendments proposed by the expert from Germany as in the previous paragraph. Appendices I and II to Annex I reproduce the allocation of UPOV Color Groups for each RHS color and the RHS colors contained in each UPOV Color Group, respectively.

12. The TWO, at its fiftieth session, noted that editorial changes would be required in document TGP/14 to reflect the introduction of the revised list of UPOV Color Groups.

13. Annex II to this document provides a proposal for the revision of document TGP/14, Section 2, Subsection 3: "Color", as well as for Subsection 3: Annex: "Color names for the RHS Colour Chart", to reflect the introduction of the revised list of UPOV Color Groups, as proposed by the expert from Germany.

#### Defining color groups for grouping of varieties and organizing the growing trial

14. The TWO, at its fiftieth session, held in Victoria, British Columbia, Canada, from September 11 to 15, 2017, considered document TWO/50/5 "Defining color groups for grouping of varieties and organizing the growing trial" (see document TWO/50/14 "Report", paragraph 46).

15. The TWO agreed that document TGP/14 should be revised to include the following guidance on the factors to be considered for creating color groups for grouping of varieties and organizing the growing trial:

"Factors to be considered for creating color groups

"When using the color of a plant part for grouping of varieties, a very clear and large difference between the colors is required. However, the color groups are also used in the Technical Questionnaire for applicants who have no RHS Colour Chart. Therefore the groups need to be small enough so that applicants are able to give an adequate state of expression for the characteristic.

"The following factors have to be considered when creating color groups for grouping:

- (a) range of variation of the color of the plant part within the species
- (b) difference between colors for varieties to be considered clearly distinguishable
- (c) possible influence of the environment on the color of the plant part.

"Depending on the species and the plant part observed the color groups for grouping can be different. Examples for color groups in grouping characteristics of different Test Guidelines are listed in the following table.

| Test Guideline            | Campanula<br>(TG/305/1)                       | Hosta<br>(TG/299/1)                                                                                              | Cordylone<br>(TG/317/1)                                        | Osteospermum<br>(TG/175/5)                                   |
|---------------------------|-----------------------------------------------|------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------|--------------------------------------------------------------|
| Characteristic            | Corolla: main color of inner side             | Leaf blade: color covering the largest surface area                                                              | Leaf: secondary color                                          | Ray floret: main color of middle part                        |
| Color groups for grouping | white<br>pink<br>red purple<br>purple<br>blue | white<br>light yellow<br>medium yellow<br>dark yellow<br>light green<br>medium green<br>dark green<br>blue green | white<br>yellow<br>green<br>red<br>purple<br>brown<br>blackish | white<br>yellow<br>orange<br>pink<br>red<br>purple<br>violet |

"It should be emphasized that not all groups are necessarily clearly distinct from each other when information is used that does not come from the same source (same location, same observer) and cannot always be used to exclude varieties from the trial. E.g. in Cordylone for the characteristic 'Leaf: secondary color' it might not be possible to clearly distinguish between 'brown' and 'blackish' when looking at photos on the internet or in a plant catalogue."

## CONSIDERATION BY THE ENLARGED EDITORIAL COMMITTEE

16. The Council, at its thirty-fourth extraordinary session, held in Geneva on April 6, 2017, decided to organize a single set of sessions from 2018, in the period of October/November (see document C(Extr.)/34/6 "Report on the decisions", paragraphs 12 to 14). From 2018, the meetings of the TC will take place on October/November instead of March/April. The TC-EDC will meet twice a year; once in the period of March/April and once in conjunction with the TC sessions later in the year.

17. Based on the recommendation of the Consultative Committee, the Council decided to adopt the proposals of the TC, at its fifty-third session, to use contingency measures in the transitional period until the fifty-fourth session of the TC, to be held in October 2018; for TGP documents, the TC-EDC would consolidate comments made by the TWPs at their sessions in 2017 and, in the absence of consensus between the TWPs, to formulate proposals for further consideration by the TWPs at their sessions in 2018 (see document C(Extr.)/34/6 "Report on the decisions", paragraphs 12 to 14).

18. The TC-EDC, at its meeting held in Geneva, on March 26 and 27, 2018, considered document TC-EDC/Mar18/19 Rev. "UPOV Color groups" (see document TC-EDC/Mar18 "Report", paragraphs 41 to 47).

19. The TC-EDC considered the proposals for the revision of document TGP/14, Section 2, Subsection 3: "Color", and Subsection 3: Annex: "Color names for the RHS Colour Chart" and agreed that they should be submitted for consideration by the TWPs, at their sessions in 2018.

20. The TC-EDC noted that, in some cases, the new UPOV Color groups changed the names previously attributed to the same RHS Colour chart references (e.g.: 1A = "yellow" (previous); "medium yellow green" (new)).

21. The TC-EDC agreed to invite the TWPs, at their sessions in 2018, to consider whether to keep the previous list of UPOV Color groups within document TGP/14 in order to avoid confusion.

22. The TC-EDC considered the proposal for the revision of document TGP/14 to include guidance on the factors to be considered for creating color groups for grouping of varieties and organizing the growing trial, as set out in paragraph 14 of document TC-EDC/Mar18/19 Rev.. The TC-EDC agreed that state of expression "purple red" in the examples for *Campanula* should be corrected to read "red purple".

23. The TC-EDC agreed to propose that the respective edition of an RHS Colour Chart should be indicated when used in a variety description.

24. The TC-EDC agreed that the above proposals should be submitted for consideration by the TWPs, at their sessions in 2018.

## COMMENTS BY THE TECHNICAL WORKING PARTIES

25. The TWA, TWC and TWV considered document TWP/2/12. (see documents TWA/47/7 "Report", paragraphs 33 and 34; TWC/36/15 "Report, paragraphs 59 to 62; TWV/52/20 "Report", paragraphs 40 to 42)

26. The TWA agreed that color charts were not commonly used in Test Guidelines for agricultural crops.

27. The TWC noted that the UPOV Color groups and lists of names associated with RHS Colour Charts could be used in databases and agreed to request that consideration be given to the provision of a specific web service providing this information to users.

28. The TWV agreed that color charts were not commonly used in Test Guidelines for vegetables.

29. The TWV noted the comments made by the TC-EDC and in particular on the proposal for the correction of the state of expression "purple red" in the examples for *Campanula* should be corrected to read "red purple", and further recommended to reflect the change for the UPOV color group 37-38, as reproduced in Annex I of document TWP/2/12.

30. *The TC is invited to consider:*

(a) *the proposal for the revision of the list of UPOV Color Groups in document TGP/14 "Glossary of Terms used in UPOV Documents" on the basis of the color groups set out in the Annex I to this document;*

(b) *the proposal for the revision of document TGP/14, Section 2, Subsection 3: "Color", and Subsection 3: Annex: "Color names for the RHS Colour Chart", to reflect the introduction of the revised list of UPOV Color Groups, as set out in Annex II to this document;*

(c) *the proposal for the revision of document TGP/14 to include guidance on the factors to be considered for creating color groups for grouping of varieties and organizing the growing trial, as set out in paragraph 15 of this document;*

(d) *whether to keep the previous list of UPOV Color groups within document TGP/14 in order to avoid confusion; and*

(e) *whether the edition of an RHS Colour Chart should be indicated when used in a variety description.*

## “2.2.4 Color Chart

“If it is necessary to describe a color with a color chart, UPOV uses the color chart from the Royal Horticultural Society (RHS), the “RHS Colour Chart” because of its worldwide availability. There are ~~5~~ 6 editions of this color chart, dating from 1966, 1986, 1995, 2001, ~~and 2007~~ and 2015. Since 2005, the “RHS Mini Colour Chart” has been published by the Flower Council Holland and is also frequently used by breeders. Other color charts might also be appropriate.

“When using the RHS Colour Chart, the reference number of the RHS color, the UPOV color name and the edition of the chart should be mentioned in the variety description. ~~A proposal for naming the colors has been made~~ Information on UPOV color names can be found in the ANNEX of this document.”

### “COLOR NAMES FOR THE RHS COLOUR CHART

#### “1. Introduction

“1.1 When using the RHS Colour Chart, the variety description should contain both the RHS Colour Chart reference number and a name for the color. The purpose of this document is to harmonize color names for variety descriptions.

1.2 The following table gives an overview of the existing "groups" for the sixth edition of the RHS Color Chart:

|                                |                                                          | <u>Number of entries or groups</u> | <u>Example</u>                   | <u>Use</u>                                                                                         |

|                                | <u>RHS Colour Name</u>                                   | <u>190</u>                         | <u>Strong Pink</u>               | <u>not used for UPOV purposes</u>                                                                  |
|                                | <u>UPOV Color Name</u>                                   | <u>73</u>                          | <u>Pink</u><br><u>(group 29)</u> | <u>Used in the variety description to translate the RHS Colour Chart number into a color name.</u> |
|                                | <u>RHS Color Group</u><br><u>(heading on each sheet)</u> | <u>29</u>                          | <u>Red Group</u>                 | <u>Used by the CPVO for checking colors in proposals for variety denominations.</u>                |

~~“1.23 In the editions one to five (1966 until 2007) the RHS Colour Chart contained up to 896 colors, which are were divided into 23 “groups” to name the colors. However, for UPOV purposes, this initial grouping seemed unable to name the colors in variety descriptions in a sufficiently precise way. Therefore, UPOV has identified 50 its own color name “groups” which are presented in this document.~~

1.4 In the sixth edition (2015) of the RHS Colour Chart for the first time each patch has a color name. However, these color names do not always reflect the color similarity of the patches and therefore it seemed not appropriate to use these names for UPOV purposes.

1.5 On the basis of the sixth edition of the RHS Colour Chart UPOV has identified 73 color “groups” which are presented in this document. For naming of the RHS Colour Charts in the editions one to five (1966 to 2007), see document TGP/14/3 [cross ref.]. “It is important to note that these color “groups” were not created for the purpose of grouping varieties for DUS trials and should not be used for that purpose. Information on the grouping of varieties for DUS trials can be found in document TGP/9/4 “Examining Distinctness” [cross ref.].

~~“1.63 The names used for the 50 73 UPOV Color Groups consist of either the [pure color] / [color hue] (e.g. yellow, orange, red), a combination of two [pure colors] / [color hues] (e.g. yellow orange, orange pink, purple red), or a combination of the [pure color(s)] / [color hue(s)] with “light” or “dark” (e.g. light yellow, dark pink red).~~

~~“1.4 The color names in this document can be used with different editions of the RHS Colour Chart. The 1986 version of the RHS Colour Chart was used for the initial grouping and naming. In the 1995 edition no new charts were added. The additional charts in the 2001 edition (marked with “N”) and in the 2007 edition (marked with “NN”) have been integrated into the existing groups.”~~

“2. Example for the use of the UPOV Color Names in a variety description

[...]

“2.2 For the variety description, it is useful to translate the RHS colour chart number into a color name and to fill this name into the column “state of expression”. The color name can be found in the appendix to this document, in which the RHS Colors are listed according to the UPOV Color Group to which they belong: e.g. RHS 46C belongs to group 24 35 “medium red”, RHS N 74B belongs to group 27 42 “medium purple” and RHS N 57A belongs to group 23 37 “medium purple red”.”
