TECHNICAL COMMITTEE

Einundzwanzigste Tagung
Genf, 12. und 13. November 1985Vingt et unième session
Genève, 12 et 13 novembre 1985Twenty-First Session
Geneva, November 12 and 13, 1985

DRAFT FOR A LIST OF REFERENCE BOOKS AND DOCUMENTS

PROJET DE LISTE D'OUVRAGES ET D'AUTRES DOCUMENTS DE REFERENCE

ENTWURF FUER EINE LISTE DER REFERENZBUCHER UND -DOKUMENTE

Information collected by the Office of UPOV
Renseignements recueillis par le Bureau de l'Union
Vom Verbandsbüro gesammelte Informationen

As requested by the Technical Committee during its eighteenth session, held from November 17 to 19, 1982, the Office of UPOV had prepared a draft for a List of Reference Books and Documents (see TWA/XII/4 Rev. Annex IV). During its twentieth session, held on November 6 and 7, 1984, the Technical Committee agreed that in order to make up the final list, the Technical Working Parties should as a first step complete their recommended list. The Annexes to this document reproduce the final draft for that list of Reference Books and Documents which was amended according to the proposals made during the last sessions of the Technical Working Parties.

Annex I contains reference books and documents with General Information for the testing of varieties as a whole.

Annex II contains reference books and documents with General Information for the testing of varieties for a given subject (statistics and data processing for the Technical Working Party on Automation and Computer Programs) or for a given group of plants (agricultural crops, forest trees, fruit crops, ornamental plants, vegetables, tropical and subtropical plants).

Annex III contains reference books and documents with Specific Information for one or a few genera or species which are grouped in alphabetical order of the Latin name of the genus. Some genera have been divided into further sub-groups and these are indicated with English common names.

Ainsi que l'avait demandé le Comité technique à sa dix-huitième session, tenue du 17 au 19 novembre 1982, le Bureau de l'UPOV a établi un projet de liste d'ouvrages et d'autres documents de référence (voir l'annexe IV du document TWA/XII/4 Rev.). Au cours de sa vingtième session, tenue les 6 et 7 novembre, 1984, le Comité technique est convenu que, dans un premier temps, les groupes de travail techniques devraient mettre au point leurs listes recommandées en vue de l'établissement de la liste finale. On trouvera aux annexes du présent document un projet mis à jour de la liste d'ouvrages et d'autres documents de référence établi conformément aux propositions émises par les groupes de travail techniques à leurs dernières sessions.

L'annexe I énumère des ouvrages et d'autres documents de référence contenant des informations générales pour l'examen des variétés dans sa totalité.

L'annexe II énumère des ouvrages et d'autres documents de référence contenant des informations générales pour l'examen des variétés se rapportant aux statistiques et au traitement des données (sujets intéressant le Groupe de travail technique sur les systèmes d'automatisation et les programmes d'ordinateur) ou à un groupe particulier de plantes (plantes agricoles, arbres forestiers, plantes fruitières, plantes ornementales, plantes potagères, plantes tropicales et subtropicales).

L'annexe III énumère des ouvrages et d'autres documents de référence contenant des informations spécifiques à un genre ou une espèce, ou à un petit nombre de genres ou espèces. La liste suit l'ordre alphabétique des noms latins des genres. Pour certains genres il a été prévu des subdivisions classées selon les noms communs anglais.

* * * * *

Wie vom Technischen Ausschuss auf seiner achtzehnten Tagung vom 17. bis 19. November 1982 erbeten, hatte das Verbandsbüro einen Entwurf für eine Liste der Referenzbücher und -dokumente erstellt (siehe Dokument TWA/XII/4 Rev., Anlage IV). Auf seiner zwanzigsten Tagung am 6. und 7. November 1984 hat der Technische Ausschuss beschlossen, dass für die Erstellung der abschliessenden Liste die Technischen Arbeitsgruppen zunächst ihre empfohlenen Listen abschliessen sollten. Die Anlagen zu diesem Dokument geben den entsprechend den auf den letzten Tagungen der Technischen Arbeitsgruppen gemachten Vorschlägen geänderten Entwurf für eine Liste der Referenzbücher und -dokumente wieder.

Anlage I enthält Referenzbücher und -dokumente mit allgemeinen Informationen über die Prüfung von Sorten in ihrer Gesamtheit.

Anlage II enthält Referenzbücher und -dokumente mit allgemeinen Informationen über die Prüfung von Sorten für ein bestimmtes Thema (Statistik und Datenverarbeitung für die Technische Arbeitsgruppe für Automatisierung und Datenverarbeitungsprogramme) oder für eine bestimmte Gruppe von Pflanzen (landwirtschaftliche Arten, forstliche Baumarten, Obstarten, Zierpflanzen, Gemüsearten, tropische und subtropische Pflanzen).

Anlage III enthält Referenzbücher und -dokumente mit spezifischen Informationen über eine oder mehrere Gattungen oder Arten. Sie sind in alphabetischer Reihenfolge der lateinischen Gattungsbezeichnung gruppiert, und für einige Gattungen sind weitere Untergruppen, die mit dem englischen landesüblichen Namen versehen sind, vorgesehen.
