

Technical Working Party for Agricultural Crops

TWP/1/4

Forty-Sixth Session

Hanover, Germany, June 19 to 23, 2017

Original: English

Date: June 9, 2017

Technical Working Party for Vegetables

Fifty-First Session

Roelofarendsveen, Netherlands, July 3 to 7, 2017

Technical Working Party for Ornamental Plants and Forest Trees

Fiftieth Session

Victoria, Canada, September 11 to 15, 2017

Technical Working Party for Fruit Crops

Forty-Eighth Session

Kelowna, Canada, September 18 to 22, 2017

Technical Working Party on Automation and Computer Programs

Thirty-Fifth Session

Buenos Aires, Argentina, November 14 to 17, 2017

UPOV INFORMATION DATABASES*Document prepared by the Office of the Union**Disclaimer: this document does not represent UPOV policies or guidance***EXECUTIVE SUMMARY**

1. The purpose of this document is to provide an update on developments concerning the GENIE database; UPOV Codes; and the PLUTO database.

2. The TWPs are invited to note:

(a) that a specification document explaining the data structure and functions of the GENIE database is being developed by the Office of the Union in order that IT-related maintenance can be provided in the future;

(b) that 173 new UPOV codes were created in 2016 and the total of 8,149 UPOV codes are included in the GENIE database;

(c) that the Office of the Union received a request from OECD to create new UPOV codes for 191 forest tree species moving in international trade under the OECD certification schemes;

(c) that the TC, at its fifty-third session, agreed that it would not be appropriate to revise the Guide to the UPOV Code System in relation to the principal botanical name for inter-generic and interspecific hybrids, as set out in paragraph 18 of this document;

(d) that the TC noted that, in order to avoid any misinterpretation, the CPVO would make it clear that the information provided to the Office of the Union would be in alphabetical order;

(e) the summary of contributions to the PLUTO database from 2013 to 2016 and the current situation of members of the Union on data contribution, as presented in the Annex I to this document; and

(h) that the WG-DEN, at its third meeting, held in Geneva on April 7, 2017, agreed that agenda item 5 "Expansion of the content of the PLUTO database" would be considered at a later meeting on the basis of the document presented at its second meeting.

3. The TWA, TWV, TWO and TWF are invited to:

(a) check the amendments to UPOV codes, the new UPOV codes or new information added for existing UPOV codes, and the UPOV codes used in the PLUTO database for the first time, which are provided in Annex II to this document; and

(b) submit comments on Annex II, part A "UPOV codes amendments to be checked", part B "New UPOV codes or new information", and part C "Crop type(s) of UPOV codes used in the PLUTO database for the first time" to the Office of the Union by October 31, 2017.

4. The structure of this document is as follows:

EXECUTIVE SUMMARY	1
GENIE DATABASE	2
BACKGROUND.....	2
MAINTENANCE OF THE GENIE DATABASE	3
UPOV CODE SYSTEM	3
GUIDE TO THE UPOV CODE SYSTEM.....	3
UPOV CODE DEVELOPMENTS.....	3
PROPOSAL TO THE "GUIDE TO THE UPOV CODE SYSTEM" ON THE PRINCIPAL BOTANICAL NAME FOR INTER-GENERIC AND INTERSPECIFIC HYBRIDS	4
PLUTO DATABASE.....	5
PROGRAM FOR IMPROVEMENTS TO THE PLUTO DATABASE.....	5
<i>Provision of assistance to contributors (Program: section 2)</i>	6
SEARCH TOOLS.....	6
CONTENT OF THE PLUTO DATABASE	6

**ANNEX I REPORT ON DATA CONTRIBUTED TO THE PLANT VARIETY DATABASE BY MEMBERS OF THE UNION
AND OTHER CONTRIBUTORS AND ASSISTANCE FOR DATA CONTRIBUTION**

ANNEX II UPOV CODES TO BE CHECKED BY THE AUTHORITIES

5. The following abbreviations are used in this document:

CAJ:	Administrative and Legal Committee
TC:	Technical Committee
TWA:	Technical Working Party for Agricultural Crops
TWC:	Technical Working Party on Automation and Computer Programs
TWF:	Technical Working Party for Fruit Crops
TWO:	Technical Working Party for Ornamental Plants and Forest Trees
TWP(s):	Technical Working Party(ies)
TWV:	Technical Working Party for Vegetables
WG-DST:	Working Group for the Development of a UPOV Denomination Similarity Search Tool
WG-DEN:	Working Group on Variety Denominations

GENIE DATABASE

Background

6. It is recalled that the GENIE database (<http://www.upov.int/genie/en/>) has been developed to provide, for example, online information on the status of protection (see document C/[session]/6), cooperation in examination (see document C/[session]/5), experience in DUS testing (see document TC/[session]/4), and existence of UPOV Test Guidelines (see document TC/[session]/2) for different GENera and specIEs (hence GENIE), and is used to generate the relevant Council and TC documents concerning that information. In addition, the GENIE database is the repository of the UPOV codes and also provides information concerning alternative botanical and common names.

Maintenance of the GENIE database

7. The GENIE database was created with the help of the Information Technology Department of the World Intellectual Property Organization (WIPO). The IT-related maintenance of the GENIE database was also provided by WIPO. However, since 2016, WIPO no longer has staff to provide such maintenance work and UPOV is now responsible for IT-related maintenance of the GENIE database.

8. A specification document explaining the data structure and functions of the GENIE database is being developed by the Office of the Union in order that the IT-related maintenance can be provided in the future. In addition to corrective maintenance, a modification of the database is needed for uploading certain type of data when notes apply. Furthermore, improvements to the generation of reports for documents for the Council and relevant committees need to be made. This work is planned to be completed by the end of 2018.

9. *The TWPs are invited to note that a specification document explaining the data structure and functions of the GENIE database is being developed by the Office of the Union in order that IT-related maintenance can be provided in the future.*

UPOV CODE SYSTEM

Guide to the UPOV Code System

10. The "Guide to the UPOV Code System" is available on the UPOV website (see http://www.upov.int/genie/en/pdf/upov_code_system.pdf).

UPOV code developments

11. In 2016, 173 new UPOV codes were created and amendments were made to 16 existing UPOV codes. The total number of UPOV codes in the GENIE database at the end of 2016 was 8,149.

	Year								
	2008	2009	2010	2011	2012	2013	2014	2015	2016
New UPOV codes	300 (approx.)	148	114	173	212	209	577	188	173
Amendments	30 (approx.)	17	6	12	5	47*	37	11	16
Total UPOV Codes (at end of year)	6,346	6,582	6,683	6,851	7,061	7,251	7,808	7,992	8,149

* including changes to UPOV codes resulting from the amendment of the "Guide to the UPOV Code System" concerning hybrids (see document TC/49/6).

12. In March 2017, the Office of the Union received a request from OECD to create new UPOV codes for 191 forest tree species moving in international trade under the OECD certification scheme by September 2017.

13. In accordance with the procedure set out in Section 3.3 of the Guide to the UPOV Code System, the Office of the Union will prepare tables of UPOV code additions and amendments, for checking by the relevant authorities, for each of the TWP sessions in 2017.

14. The Excel files provided as Annex II, part A "UPOV codes amendments to be checked", part B "New UPOV codes or new information", and part C "Crop type(s) of UPOV codes used in the PLUTO database for the first time" (available on the TWA/46, TWV/51, TWO/50, TWF/48 and TWC/35 website in excel file only) to this documents provide information on new UPOV codes added to the GENIE database and UPOV code amendments that have not yet been checked by the relevant authorities, as follows:

"Part A, 'UPOV codes amendments to be checked':

for each change, the old entry is highlighted in the row in red and the changes to the entry are found in the line immediately below that highlighted row (they have the same number in the first column). All Technical Working Parties and Authority(ies) are requested to check the amendments whether the amendments follow UPOV code system, reflects authentic botanical names and/or common names (see "Guide to the UPOV Code System" http://www.upov.int/export/sites/upov/genie/en/pdf/upov_code_system.pdf).

"Part B 'New UPOV codes or new information':

contains the new UPOV codes or new information added for existing UPOV codes. Highlighting in grey indicates that the UPOV code or name has not been changed. In this spreadsheet, the column headers highlighted in yellow indicate the relevant Technical Working Party (TWP) and Authority(ies) of interest which are requested to check the correctness of the information."

"Part C 'Crop type(s) of UPOV codes used in the PLUTO database for the first time':

contains the new crop type allocation or amended allocation for new and existing UPOV codes. In this spreadsheet, the column headers highlighted in yellow indicate the relevant crop type(s) which are requested to check the correctness of the information."

15. Experts of the TWA, TWV, TWO and TWF are requested to check the amendments to UPOV codes and the new UPOV codes or new information added for existing UPOV codes and to submit comments by September 29, 2017 for TWA and TWV, October 31, 2017 for TWO and TWF.

Proposal to the "Guide to the UPOV Code System" on the Principal Botanical Name for Inter-generic and Interspecific Hybrids

16. The TC, at its fifty-second session, held in Geneva from March 14 to 16, 2016, agreed to invite the European Union to make a proposal to the TWPs, at their sessions in 2016, to revise the Guide to the UPOV Code System with regard to UPOV codes for hybrid genera and species (see document TC/52/29 Rev. "Revised Report", paragraph 163).

17. The TWC, TWO, TWV, TWA and TWF considered documents TWC/34/23, TWO/49/18, TWV/50/18, TWA/45/18 and TWF/47/25 "Proposal to the 'Guide to the UPOV Code System' on the Principal Botanical Name for Inter-Generic and Interspecific Hybrids" prepared by an expert from the European Union, respectively, which contained the following proposal:

"11. It is proposed:

- to reconsider the possibility of the registration of the Principal Botanical Name for intergeneric and interspecific hybrids in the UPOV GENIE database as described in the "Guide to the UPOV Code System" – its point 2.2.6 taking into account the wish of authorities to harmonize the names with the UPOV database and the experience of authorities as regards registration of botanical taxa for varieties applied for plant breeder's rights. In particular, it is proposed to consider the option to register hybrids in the alphabetical order and to indicate the author's names;
- to exchange opinion about the registration policy under the genus names by different authorities;
- to consider if there could be a possibility to indicate that a variety is a complex hybrid."

18. The TWC, TWO, TWV, TWA and TWF considered the proposal to present the principal botanical name for UPOV Codes of hybrid genera and species indicating the parents in alphabetical order. The TWO, TWV, TWA and TWF noted the existence of different procedures among members and noted that in some members the information on parents of a hybrid ornamental variety were only published when confirmed and indicating the female parent first. The TWO, TWV, TWA and TWF noted that in one member the information on parents of a hybrid ornamental variety were published according to the information provided by the applicant. On that basis, the TWV, TWA and TWF agreed that it would not be appropriate to revise the Guide to the UPOV Code System in relation to the principal botanical name for inter-generic and interspecific hybrids (see documents TWC/34/32, paragraph 113, TWO/49/25, paragraph 73, TWV/50/25, paragraph 83, TWA/45/18, paragraph 66 and TWF/47/25, paragraph 83).

19. The TWF noted the comment made by the expert from the European Union that the creation of new botanical name in GENIE database, upon the request from CPVO, cannot be seen in accordance with the "Guide to the UPOV code system". In order to avoid any misinterpretation, the CPVO makes it clear that the

information provided to the Office of the Union is in alphabetical order (see document TWF/47/25, paragraph 84).

20. The TC, at its fifty-third session, held in Geneva from April 3 to 5, 2017, considered the proposal to revise the Guide to the UPOV Code System in relation to the principal botanical name for intergeneric and interspecific hybrids, as set out in document TC/53/6, paragraphs 12 to 15. The TC noted the existence of different procedures among members and agreed that it would not be appropriate to revise the Guide to the UPOV Code System in relation to the principal botanical name for inter-generic and interspecific hybrids (see document TC/53/31 "Report", paragraph 156 to 157).

21. The TC noted that, in order to avoid any misinterpretation, the CPVO would make it clear that the information provided to the Office of the Union would be in alphabetical order.

22. *The TWPs are invited to note that:*

(a) *173 new UPOV codes were created in 2016 and the total of 8,149 UPOV codes are included in the GENIE database;*

(b) *the Office of the Union received a request from OECD to create new UPOV codes for 191 forest tree species moving in international trade under the OECD certification schemes;*

(c) *the TC, at its fifty-third session, agreed that it would not be appropriate to revise the Guide to the UPOV Code System in relation to the principal botanical name for inter-generic and interspecific hybrids, as set out in paragraph 18 of this document; and*

(d) *the TC noted that, in order to avoid any misinterpretation, the CPVO would make it clear that the information provided to the Office of the Union would be in alphabetical order.*

23. *The TWA, TWV, TWO and TWF are invited to:*

(a) *check the amendments to UPOV codes, the new UPOV codes or new information added for existing UPOV codes, and the UPOV codes used in the PLUTO database for the first time, which are provided in Annex II to this document; and*

(b) *submit comments on Annex II, part A "UPOV codes amendments to be checked", part B "New UPOV codes or new information", and part C "Crop type(s) of UPOV codes used in the PLUTO database for the first time" to the Office of the Union by October 31, 2017.*

PLUTO DATABASE

Program for improvements to the PLUTO database

24. The CAJ, at its sixty-eighth session, held on October 21, 2013, considered document CAJ/68/6 "UPOV information databases" and approved the amendments to the Program for improvements to the PLUTO database ("Program") as set out in document CAJ/68/6, Annex II, subject to certain further amendments agreed at that session (see document CAJ/68/10 "Report on the Conclusions", paragraphs 23 to 26).

25. The Program reflecting amendments approved at previous sessions is available in documents TWA/43/5, TWV/48/5, TWO/47/5, TWF/45/5 and TWC/32/5 "UPOV Information Databases", Annex I.

26. The following paragraphs provide a summary of developments concerning the Program since the fifty-second session of the TC, held in Geneva, from March 14 to 16, 2016.

Provision of assistance to contributors (Program: section 2)

27. The Annex I to this document provides a summary of the contributions to the PLUTO database from 2013 to 2016 and the current situation of members of the Union on data contribution.

Search tools

28. Matters concerning the possible development of a similarity search tool for variety denomination purposes are reported in document TWP/1/6 "Variety Denominations".

Content of the PLUTO Database

29. The background of this matter is provided in documents TWA/45/5, TWV/50/5, TWO/49/5, TWF/47/5 and TWC/34/5 "UPOV Information databases".

30. The CAJ, at its seventy-third session, held in Geneva on October 25, 2016, noted the work by the WG-DEN concerning the expansion of the content of the PLUTO database (see document CAJ/73/10 "Report on the Conclusions", paragraph 28).

31. The TC, at its fifty-third session, noted that the WG-DEN, at its second meeting, had agreed that agenda item 5 "Expansion of the content of the PLUTO database" was not able to consider at its second meeting would be considered at its third meeting on the basis of the document presented at the second meeting (see document TC/53/31 "Report", paragraph 160).

32. The WG-DEN, at its third meeting, held in Geneva on April 7, 2017, agreed that matters that agenda item 5 "Expansion of the content of the PLUTO database" would be considered at a later meeting on the basis of the document presented at the second meeting.

33. The fourth meeting of the WG-DEN will be held in Geneva, on October 27, 2017.

34. *The TWPs are invited to note:*

(a) *the summary of contributions to the PLUTO database from 2013 to 2016 and the current situation of members of the Union on data contribution, as presented in the Annex I to this document; and*

(b) *that the WG-DEN, at its third meeting, held in Geneva on April 7, 2017, agreed that agenda item 5 "Expansion of the content of the PLUTO database" would be considered at a later meeting on the basis of the document presented at its second meeting.*

ANNEX I

REPORT ON DATA CONTRIBUTED TO THE PLANT VARIETY DATABASE BY MEMBERS OF THE UNION AND OTHER CONTRIBUTORS AND ASSISTANCE FOR DATA CONTRIBUTION

Contributor	Number of applications for Plant Breeders' Rights in 2015	Number of new data submissions to the Plant Variety Database in 2013	Number of new data submissions to the Plant Variety Database in 2014	Number of new data submissions to the Plant Variety Database in 2015	Number of new data submissions to the Plant Variety Database in 2016	Situation at March 31, 2017

8-Jul-2016	AEONI_ARB	<i>Aeonium arboreum</i> (L.) Webb et Berth.					Plant	ornamental
8-Jul-2016	BITUM_BIT	<i>Bituminaria bituminosa</i> (L.) C. H. Stirr.	Arabian scurf-pea				Plant	agriculture, ornamental
8-Jul-2016	BURSA_SPI	<i>Bursaria spinosa</i> Cav.	Australian blackthorn				Plant	ornamental
8-Jul-2016	CRASS_CAP	<i>Crassula capitella</i> Thunb.					Plant	ornamental
8-Jul-2016	CITRU_MLA	(<i>Citrus medica</i> x <i>Citrus limon</i>) x <i>Citrus aurantiifolia</i>					Plant	fruit
8-Jul-2016	ELYMU_REP_REP	<i>Elymus repens</i> (L.) Gould subsp. <i>repens</i>	Couch Grass	Chiendent rampant	Ackerquecke	Grama canina	Plant	agriculture
8-Jul-2016	ELYMU_REP_REP	<i>Agropyron repens</i> (L.) P. Beauv.	Couch Grass	Chiendent rampant	Ackerquecke	Grama canina	Plant	agriculture
8-Jul-2016	ELYMU_REP_REP	<i>Elytrigia repens</i> (L.) Desv. ex Nevski	Couch Grass	Chiendent rampant	Ackerquecke	Grama canina	Plant	agriculture
8-Jul-2016	GREVI_LAN	<i>Grevillea lanigera</i> A. Cunn. ex R. Br.					Plant	ornamental
8-Jul-2016	LOBEL_PED	<i>Lobelia pedunculata</i> R. Br.	matted pratia				Plant	ornamental
8-Jul-2016	PSEUD_RSP	<i>Elymus repens</i> x <i>Pseudoroegneria spicata</i>					Plant	agriculture
8-Jul-2016	THINO_PON	<i>Thinopyrum ponticum</i> (Podp.) Barkworth & D. R. Dewey	rush wheatgrass		pontische Quecke		Plant	agriculture
8-Jul-2016	THINO_PON	<i>Elytrigia pontica</i> (Podp.) Holub	rush wheatgrass		pontische Quecke		Plant	agriculture
10-Aug-2016	SALVI_GUA	<i>Salvia guaranitica</i> A. St.-Hil. ex Benth.					Plant	ornamental
10-Aug-2016	ZIZIA_APT	<i>Zizia aptera</i> (A. Gray) Fernald					Plant	ornamental
10-Aug-2016	VITEX_NEG	<i>Vitex negundo</i> L.	Chinese chastetree				Plant	ornamental
2-Sep-2016	BUGLO_ARV	<i>Buglossoides arvensis</i> (L.) I. M. Johnst.	corn gromwell	gremil des champs	Acker-Steinsame		Plant	ornamental
2-Sep-2016	BUGLO_ARV	<i>Lithospermum arvense</i> L.	corn gromwell	gremil des champs	Acker-Steinsame		Plant	ornamental
2-Sep-2016	CURIO_HER	<i>Curio herreanus</i> (Dinter) P. V. Heath					Plant	ornamental
2-Sep-2016	CURIO_HER	<i>Senecio herreanus</i> Dinter					Plant	ornamental
2-Sep-2016	PEPER_RVE	<i>Peperomia rubella</i> x <i>Peperomia verticillata</i>					Plant	ornamental
2-Sep-2016	PEPER_RVE	<i>Peperomia rubella</i> x <i>Piper verticillatum</i>					Plant	ornamental
2-Sep-2016	SUAED_MEX	<i>Suaeda mexicana</i> (Standl.) Standl.	Mexican seepweed				Plant	ornamental
2-Sep-2016	SUAED_EDU	<i>Suaeda edulis</i> Flores Olv. & Noguez					romerito	vegetable
14-Sep-2016	ALTER	<i>Alternanthera</i>					Plant	agriculture, ornamental
14-Sep-2016	ASPAL	<i>Aspalathus</i> L.					Plant	ornamental
14-Sep-2016	BESCH	<i>Beschorneria</i> Kunth					Plant	ornamental
14-Sep-2016	ALOCA_ORE	<i>Alocasia odora</i> x <i>Alocasia reginula</i>					Plant	ornamental
14-Sep-2016	BORON_HPU	<i>Boronia heterophylla</i> x <i>Boronia pulchella</i>					Plant	ornamental
14-Sep-2016	COLEN	<i>Coleonema</i>					Plant	ornamental
14-Sep-2016	CORNU_HON	<i>Cornus hongkongensis</i> Hemsl.					Plant	ornamental
14-Sep-2016	HYPOX	<i>Hypoxis</i> L.					Plant	ornamental
14-Sep-2016	SEORO	<i>Sedum</i> x <i>Orostachys</i>					Plant	ornamental
14-Sep-2016	TSUGA_CAN	<i>Tsuga canadensis</i> (L.) Carriere					Plant	ornamental, forest tree
