UPOV TWC WWW INFORMATION PAGES

Document prepared by experts from the United Kingdom

UPOV TWC WWW INFORMATION PAGES

As discussed at the UPOV TWC meeting in Budapest in June 1997 some WWW pages have been created which bring together information about the work of the TWC.

The main aim of the pages is to provide a readily-accessible reference source for information about the work of the TWC in particular, but of other groups also, if they wish to participate.

Information that is held in the pages includes:

- email addresses of participants of all UPOV TWPs;
- a list of UPOV TWC participants and their addresses;
- basic information about TWC meetings;
- an indexed list of all past TWC working papers;
- descriptions of the procedures COYD/COYU;
- details of UPOV database systems;
- details of statistical software available from UPOV TWC participants.

The pages are accessible at:

<http://www.bioss.sari.ac.uk/links/upov/upov.html>

Comments and suggestions for improvements would be welcomed.

Please note that the Office of UPOV has opened an official WWW site in December 1997 which can be accessed at: <http://www.upov.int>
