ADDENDUM

VARIETY DENOMINATION CLASSES

Document prepared by the Office of the Union

In addition to the proposals concerning the revision of the List of Classes set out in document TWO/38/5, the following proposals have been made by experts from Germany:

(a) to introduce a class for Calluna, Erica and Daboecia. This proposal would mean that, in effect, Class 20 (Calluna, Erica) would not be deleted and Daboecia would be added to the class;

(b) to introduce a new class for Plectranthus, Solenostemon and Coleus, on the basis that species of Coleus have been transferred to Plectranthus and Solenostemon.
