Vom Verbandsbüro gesammelte Informationen

This document is the updated version of documents TC/XXII/4 and TWV/XXI/3 and consists of 3 Annexes:

Annex I contains reference books and documents with General Information for the testing of varieties as a whole.

Annex II contains reference books and documents with General Information for the testing of varieties for a given subject (statistics and data processing for the Technical Working Party on Automation and Computer Programs) or for a given group of plants (agricultural crops, forest trees, fruit crops, ornamental plants, vegetables, tropical and subtropical plants).

Annex III contains reference books and documents with Specific Information for one or a few genera or species which are grouped in alphabetical order of the Latin name of the genus. Some genera have been divided into further sub-groups and these are indicated with English common names.

Ce document est la version mise à jour des documents TC/XXII/4 et TWV/XXI/3 et se compose de 3 annexes:

L'annexe I énumère des ouvrages et d'autres documents de référence contenant des informations générales pour l'examen des variétés dans sa totalité.

L'annexe II énumère des ouvrages et d'autres documents de référence contenant des informations générales pour l'examen des variétés se rapportant aux statistiques et au traitement des données (sujets intéressant le Groupe de travail technique sur les systèmes d'automatisation et les programmes d'ordinateur) ou à un groupe particulier de plantes (plantes agricoles, arbres forestiers, plantes fruitières, plantes ornementales, plantes potagères, plantes tropicales et subtropicales).

L'annexe III énumère des ouvrages et d'autres documents de référence contenant des informations spécifiques à un genre ou une espèce, ou à un petit nombre de genres ou espèces. La liste suit l'ordre alphabétique des noms latins des genres. Pour certains genres il a été prévu des subdivisions classées selon les noms communs anglais.

Dieses Dokument ist die auf den neuesten Stand gebrachte Fassung der Dokumente TC/XXII/4 und TWV/XXI/3 und besteht aus 3 Anlagen:

Anlage I enthält Referenzbücher und -dokumente mit allgemeinen Informationen für die Prüfung von Sorten in ihrer Gesamtheit.

Anlage II enthält Referenzbücher und -dokumente mit allgemeinen Informationen für die Prüfung von Sorten für ein bestimmtes Thema (Statistik und Datenverarbeitung für die Technische Arbeitsgruppe für Automatisierung und Computerprogramme) oder für eine bestimmte Gruppe von Pflanzen (landwirtschaftliche Arten, forstliche Baumarten, Obstarten, Zierpflanzen, Gemüsearten, tropische und subtropische Pflanzen).

Anlage III enthält Referenzbücher und -dokumente mit spezifischen Informationen für eine oder mehrere Gattungen oder Arten. Sie sind in alphabetischer Reihenfolge der lateinischen Gattungsbezeichnung gruppiert. Für einige Gattungen sind weitere Untergruppen, die mit dem englischen landesüblichen Namen versehen sind, vorgesehen.
