INFORMATION FROM MEMBER STATES

Federal Republic of Germany: Extension of Protection

By virtue of the Order of June 26, 1978, Concerning the List of Species under the Plant Varieties Protection Law (Bundesgesetzblatt, June 30, 1978, Part I, pp. 910 to 915), the Federal Republic of Germany amended and extended the list of species eligible for protection. The said Order entered into force on July 1, 1978, and the Order of December 12, 1974 (see UPOV Newsletter No. 1 of May 1975), as amended by the Order of February 23, 1977 (see UPOV Newsletter No. 9 of June 1977), was repealed.

The list of species presently eligible for protection appears on pages 5 to 8 below. English and French common names have been added by the Office of the Union for the convenience of the reader, without guarantee of concordance. The changes in relation to the former list are mentioned in column 1 by the letters "A" (amendment of the entry) and "N" (new entry). In the case of an amendment, the former version of the corresponding entry is indicated between square brackets to the extent necessary for the comprehension of the amendment. It should be noted that most amendments concern only the name of the author who described the genus or species concerned.

Sweden: Extension of Protection

By Decree SFS 1978:475, which entered into force on July 1, 1978, amending Decree SFS 1977:823, which amended the Appendix of the Plant Breeders' Rights Ordinance, protection was extended to Pelargonium. The list of species presently eligible for protection appears on pages 9 to 13 below. English, French and German common names have been added by the Office of the Union for the convenience of the reader, without guarantee of concordance.

United Kingdom: Extension of Protection

The following Regulations and Schemes made under the Plant Varieties and Seeds Act 1964 came into operation on April 1, 1978:

- (i) The Plant Breeders' Rights Regulations 1978
- (ii) The Plant Breeders' Rights (Broad Beans and Field Beans) Scheme 1978 (Statutory Instrument 1978 No. 297)
- (iii) The Plant Breeders' Rights (Brussels Sprouts) Scheme 1978 (S.I. 1978 No. 298)
- (iv) The Plant Breeders' Rights (Cabbages) Scheme 1978 (S.I. 1978 No. 299)
- (v) The Plant Breeders' Rights (Celery (including Celeriac)) Scheme 1978 (S.I. 1978 No. 300)
- (vi) The Plant Breeders' Rights (Fenugreek) Scheme 1978 (S.I. 1978 No. 301)
- (vii) The Plant Breeders' Rights (Lupins) Scheme 1978 (S.I. 1978 No. 302)
- (viii) The Plant Breeders' Rights (Maize) Scheme 1978 (S.I. 1978 No. 303)
- (ix) The Plant Breeders' Rights (Marrows) Scheme 1978 (S.I. 1978 No. 304)
- (x) The Plant Breeders' Rights (Red Fescue (including Chewings Fescue)) Scheme 1978 (S.I. 1978 No. 305)
- (xi) The Plant Breeders' Rights (Turnips) Scheme 1978 (S.I. 1978 No. 306)
- (xii) The Plant Breeders' Rights (Velvet bent, Red top, Creeping bent and Brown top) Scheme 1978 (S.I. 1978 No. 307)
- (xiii) The Plant Breeders' Rights (Wood Meadow-Grass, Swamp Meadow-Grass, Smooth Stalked Meadow-Grass and Rough Stalked Meadow-Grass) Scheme 1978 (S.I. 1978 No. 308).

The above-mentioned Regulations mainly consolidate, with amendments, the Plant Breeders' Rights Regulations 1969, as amended, and adapt them to the new situation arising from the issuance of the above-mentioned schemes. The list of the species covered by the above-mentioned schemes appears on page 14 below. It should be noted that the wording of the schemes is as follows: "There are prescribed for the purpose of the grant of plant breeders' rights all plant varieties of [common name indicated in column 2 of the following list (example: fenugreek)] which conform with the characteristics of cultivated plant varieties of the [designation of the taxonomic unit - Latin name of the unit concerned indicated in column 1 of the following list (example: species Trigonella foenum-graecum L.)]. The French and the German common names, as well as the English common names in square brackets, have been added by the Office of the Union for the convenience of the reader, without guarantee of concordance.

Denmark and France: Agreement on Cooperation in Examination

An Administrative Agreement providing for cooperation in the examination of plant varieties of certain species for distinctness, homogeneity and stability has been concluded between the Plantenyhedsnaevnet (Plant Variety Board) of Denmark, on the one hand, and the Comité de la protection des obtentions végétales (Committee for the Protection of New Plant Varieties) and the Groupe d'étude et de contrôle des variétés et des semences (Group for the Study and Control of Varieties and Seeds) of France, on the other hand. It entered into force on May 1, 1978. The species covered by this Agreement are listed on page 15 below.

Denmark and the Netherlands: Agreement on Cooperation in Examination

An Administrative Agreement providing for cooperation in the examination of plant varieties of certain species for distinctness, homogeneity and stability has also been concluded between the Plantenyhedsnaevnet (Plant Variety Board) of Denmark and the Minister of Agriculture and Fisheries of the Netherlands. It entered into force on January 1, 1978. The species covered by this Agreement are listed on page 16 below.

Sweden: Modification of Fees

A new tariff of fees has been introduced in Sweden with effect from July 1, 1978, by Regulation SRS 1978:475. The following details have been communicated by the Swedish competent authorities to the Office of the Union:

<u>Kind of fee</u>	<u>Amount, Swedish Crowns</u>	<u>(Previous level)</u>
Application fee		
(1) where examination is ordered by the National Variety Board, i.e. application in Sweden as first country or application beyond period of priority	850	(600)
(2) where examination is not ordered by the National Variety Board, i.e. examination is in progress in another UPOV country and results are taken over	1 500	(950)
Appeal fee	600	(450)
Annual renewal fee	1 200	(850)
Late payment but before expiration of six months	1 450	(950)
Entries in the Variety Register (e.g. change of holder, licenses)	75	(40)

For more precise information, the above-mentioned Regulation should be consulted.

United Kingdom: Modification of Fees

A new tariff of fees for plant breeders' rights purposes has been introduced in the United Kingdom with effect from April 1, 1978, by the Plant Breeders' Rights (Fees) Regulations 1978. Changes in the level of the fees have not been made for decorative and fruit species, but only for agricultural and vegetable plant species. The new fees for the latter species can be summarized as follows:

	Wheat, Oats, Barley and Maize	Herbage & Legumes	Potatoes	Vegetables
	£	£	£	£
Application	100	75	100	75
Tests:				
Year 1	225	130	200	100
Subsequent years	175	130	200	100
Grant of Rights	50	35	35	35
Renewals:				
For Year 2	100	50	100	50
" Year 3	115	75	115	75
" Year 4	135	100	135	100
" Year 5	150	125	150	125
" Year 6 et seq.	160	150	160	150

New fees have also been introduced with respect to national listing, in combination with some important changes in the fee structure. In the main, application fees and trials fees for value for cultivation and use will not be charged, and test fees for distinctness, uniformity and stability will be charged only if the application relates to a species for which there is a Plant Breeders' Rights Scheme and if an application for protection under that Scheme is not made.

For more precise information, the above-mentioned Regulations and the Seeds (National Lists of Varieties) (Fees) Regulations 1978 should be consulted.

TEST GUIDELINES

Errata

The Guidelines for the Conduct of Tests for Distinctness, Homogeneity and Stability for Barley (document TG/19/4), for Poplar (document TG/21/4), Rape (document TG/36/3) and Cabbage (document TG/48/3) should be corrected as follows (corrections are underlined):

Test Guidelines for Barley (Annex 1, page 8):

Characteristics Caractères Merkmale	Stage Stade Stadium	English	français	deutsch	Example Varieties Exemples Beispielssorten	Note
40. Reaction to DDT	13	susceptible	sensible	<u>anfällig</u>		1
Réaction au DDT		resistant	résistante	<u>resistant</u>		2
Reaktion gegenüber DDT						

Test Guidelines for Poplar (Annex 1, page 4):

Characteristics Caractères Merkmale	English	français	deutsch	Example Varieties Exemples Beispielssorten	Note
(*) 15. Branch: angle between first 5 cm of branch and stem (in the upper third of first shoot produced after planting; time: 2nd growing season)	very acute	très aigu (<u>< 30°</u>)	sehr spitz		1
Rameau : angle entre les 5 premiers centimètres du rameau et la tige (au tiers supérieur de la premièreousse produite après plantation; époque : 2e saison de végétation)	acute	aigu (30-59°)	spitz		2
	weakly acute	peu aigu à droit (60-90°)	spitz bis rechtwinklig		3
Zweig: Winkel zwischen den ersten 5 cm des Zweigs und dem Schaft (im oberen Drittel des ersten nach dem Pflanzen gewachsenen Schafts; Zeitpunkt: 2. Wachstumsperiode)	obtuse	obtus (> 90°)	stumpf		4

Test Guidelines for Rape (Annex 1, page 1)

Characteristics Caractères Merkmale	English	français	deutsch	Example Varieties Exemples Beispielssorten	Note
(*) 4. Leaf: development of lobes (on a fully developed leaf of rosette; if no rosette is formed, on a fully developed leaf)	absent or very weak	nul ou très faible	fehlend oder sehr schwach	Akela	1
Feuille: développement des lobes (sur feuille complètement développée de la rosette; en l'absence de rosette, sur feuille complètement développée)	weak	faible	schwach	Arvor	3
Blatt: Entwicklung von Blattlappen (an einem voll entwickelten Blatt der Rosette; wenn keine Rosette gebildet, am voll entwickelten Blatt)	medium	moyen	mittel	<u>Expander</u>	5
	strong	fort	stark	<u>Primor</u>	7

Test Guidelines for Cabbage (Annex I, page 5)

Characteristics Caractères Merkmale	English	français	deutsch	Example Varieties Exemples Beispielssorten	Note
21. Outer leaf: color of white <u>midrib</u>	<u>blanche</u>	weiss			1
	light green	vert clair	hellgrün		2
Feuille externe: couleur de la nervure <u>médiane</u>	light violet	violet clair	hellviolett		3
Umblatt: Farbe der Mittelrippe					

Corrected pages of these Test Guidelines are available free of charge from the Office of the Union.

Proceedings of the Third International Colloquium on Plant Breeders' Rights.
Budapest (Hungary), April 28 and 29, 1977 (152 pages).

Short description of contents (by the editor)

This brochure contains the texts of the papers delivered at the Colloquium on the following subjects:

(i) The International Union for the Protection of New Varieties of Plants (UPOV): past, present and future (by Mr. B. Laclavière, at that time President of the Council of UPOV);

(ii) Cooperation of UPOV member States in the technical examination of plant varieties (by Dr. Dirk Böringer, President of the Federal Office of Varieties (Bundessortenamt) of the Federal Republic of Germany);

(iii) Scope of the protection of new plant varieties in the Federal Republic of Germany and in other States (by Mr. Franz Wuesthoff, patent attorney, Munich, Federal Republic of Germany);

(iv) Protection of new plant varieties in the United States of America (by Mr. Leo Donahue, United States of America);

(v) The plant variety protection system in Hungary (by Mr. G. Palos, lawyer, National Institute of Industrial Property, Budapest, Hungary);

(vi) The juridical framework of plant variety protection in Romania (by Dr. Yolanda Eminescu, Professor in Law, Bucharest, Romania).

The brochure also mentions the discussions which followed each of the above-mentioned papers.

Copies of this brochure may be obtained in English, French and German, at the price of 20 Swiss francs each, from the Secretariat of CIOPORA, 4 Place Neuve, 1204 Geneva, Switzerland.

CALENDAR

1. UPOV Meetings

1978

October 9 to 23 Geneva	Diplomatic Conference
November 13 to 15 Geneva	Technical Committee
November 15 to 17 Geneva	Administrative and Legal Committee
December 5 and 8 Geneva	Consultative Committee
December 6 to 8 Geneva	Council

1979

January 30 to February 1 San Nicolao (France)	Technical Working Party for Fruit Crops
May 22 to 24 La Minière (France)	Technical Working Party for Agricultural Crops
June 5 to 7 Avignon (France)	Technical Working Party for Vegetables
July 17 to 19 Hanover (Federal Republic of Germany)	Technical Working Party for Ornamental Plants
September 25 to 27 Wageningen (Netherlands)	Technical Working Party for Forest Trees

Headquarters

UPOV has its headquarters in Geneva, Switzerland, near the Place des Nations.

Address: 34, chemin des Colombettes,
1211 Geneva 20

Bank: Swiss Credit Bank, Geneva

Telephone: (022) 999.111

Telex: 22 376
